

**Computer information systems**

**COMPUTER INFORMATION SYSTEMS – CIS**

Mike Holzclaw, Senior Dean  
San Ramon Campus Division  
San Ramon Campus

**Possible career opportunities**

Training in computer information systems prepares students for a broad range of roles. Some possible career options include webmaster, web developer, web designer, executive assistant, office manager, office assistant, entrepreneur, database analyst, database designer, computer trainer, project manager, and team member in a startup.

**Program-level student learning outcomes**

Program learning outcomes are subject to change. The most current list of program learning outcomes for each program is published on the DVC website at [www.dvc.edu/slo](http://www.dvc.edu/slo).

**Associate in science degree**

**Computer information systems**

Students completing the program will be able to...

A. perform the duties of Information Technologies and Management workers as identified by the Bureau of Labor Statistics

B. provide technical assistance and training to computer system users.

C. investigate and resolve computer software and hardware problems of users.

D. perform the professional duties demanded in any modern office environment.

E. design and maintain static and dynamic web sites.

F. integrate elements such as graphics, animation and streaming media on web sites.

G. develop and implement database systems for stand alone or internet based deployment.

H. use technology to manage multi-faceted projects.

I. demonstrate basic graphical user interface operations in a computer environment.

J. produce spreadsheets, documents and presentations by using basic to advanced software operations.

The computer information systems associate in science program prepares the student for jobs in business and government as information technologies and management workers. Principal areas of study are computer software applications, internet technologies, database systems, project management systems and basic network principles. These CIS courses prepare students for a career path in computer information systems and technologies. These courses teach terminology and provide hands-on laboratory experience with operating and network systems and stand alone and internet based applications.

In order to obtain an associate in science degree, students must complete the courses required for the core certificate of achievement and a minimum of one area of technical specialization, and complete all general education requirements as listed in the Diablo Valley College catalog. To earn a degree, students must complete each course used to meet a major requirement with a "C" grade or higher and maintain an overall GPA of 2.5 or higher in the coursework required for the major. Other electives and course substitutions not listed below are possible with department chairperson approval.

Students are limited to one associate in science degree regardless of the number of specializations completed. Multiple certificates may be awarded.

**major requirements:**

- **core courses:**
  - CIS-115 Microsoft Word - Comprehensive .................. 2
  - CIS-116 Microsoft Excel - Comprehensive .................. 2
  - CIS-118 Microsoft PowerPoint - Comprehensive ............ 2

- **plus at least 2 units from:**
  - CIS-100 Microsoft Windows - Comprehensive ............. 2
  - CIS-101 Apple Mac Operating System ....................... 2

- **plus at least 4 units from:**
  - CIS-117 Microsoft Access - Comprehensive ............... 2
  - CIS-119 Microsoft Outlook - Comprehensive .............. 2
  - COMSC-138 Advanced Microsoft Office Using Visual Basic for Applications (VBA) .................. 2

**Core courses units subtotal**  12

Choose one of the following four technical specialization areas:

**database management - required courses:**

- CIS-107 Introduction to Web Databases .................... 2
- CIS-117 Microsoft Access - Comprehensive ................ 2
- CIS-160 Introduction to MySQL ................................ 2

**project management - required courses:**

- CIS-180 Introduction to Project Management ................ 3
- CIS-181 Project Management Fundamentals/PMI PMP Preparation .................................................. 3

**project management - recommended electives:**

- CIS-182 Project Risk Management ............................ 3
- CIS-185 Project Management Tools ............................ 2

**web graphics - required courses:**

- CIS-130 Adobe Photoshop Elements .......................... 2
- CIS-132 Adobe Premiere Elements - Comprehensive .... 2
- CIS-133 Developing Video Content for the Web ........... 2

**web technology - required courses:**

- CIS-105 Introduction to Web Design ......................... 2
- CIS-106 Adobe Dreamweaver - Comprehensive ............. 2
- CIS-107 Introduction to Web Databases .................... 2

**web technology - recommended electives:**

- CIS-108 Introduction to WordPress .......................... 2
- CIS-117 Microsoft Access - Comprehensive ............... 2
- CIS-120 iPhone and iPad App Development for Beginners .................. 2
- CIS-160 Introduction to MySQL ............................. 2

**total minimum required units**  18
Certificate of achievement
Computer information systems - core
Students completing the program will be able to...
A. demonstrate basic graphical user interface operations in a computer environment.
B. produce spreadsheets, documents and presentations by using basic to advanced software operations.

---

**CIS-100** Microsoft Windows - Comprehensive

2 units SC
- 36 hours lecture/18 hours laboratory per term
- Note: Credit by examination option available. Students may petition to repeat this course when software or hardware is changed. Only the first course completed will be applied toward a degree or certificate requirement. Units for both courses will apply towards the 60 units required for the degree.

This course teaches the functions of Microsoft Windows Operating System (OS). It prepares students to use the various local and network functions of the current Windows OS. No previous computer experience is required. CSU

**CIS-101** Apple Mac Operating System

2 units SC
- 36 hours lecture/18 hours laboratory per term
- Note: Credit by examination option available. Students may petition to repeat this course when software or hardware is changed. Only the first course completed will be applied toward a degree or certificate requirement. Units for both courses will apply towards the 60 units required for the degree.

This course teaches the functions of the Apple Mac Operating System, including the graphical user interface, file and folder management, system preferences, and networking. No previous computer experience is required. CSU

---

**CIS-105** Introduction to Web Design

2 units SC
- 36 hours lecture/18 hours laboratory per term
- Recommended: CIS-100 or CIS-101 or equivalent
- Note: Credit by examination option available. Students may petition to repeat this course when software or hardware is changed. Only the first course completed will be applied toward a degree or certificate requirement. Units for both courses will apply towards the 60 units required for the degree.

This course introduces students to the web development cycle. This process is used to create, organize, and maintain web sites that are easy to use and understand. Emphasis is placed on navigation, organization, presentation, and maintenance of websites. No previous web design experience is required. CSU

**CIS-106** Adobe Dreamweaver - Comprehensive

2 units SC
- 36 hours lecture/18 hours laboratory per term
- Recommended: CIS-100 or CIS-101 or equivalent
- Note: Credit by examination option available. Students may petition to repeat this course when software or hardware is changed. Only the first course completed will be applied toward a degree or certificate requirement. Units for both courses will apply towards the 60 units required for the degree.

This course is for students who want to learn the comprehensive functions of Adobe Dreamweaver. This program, which is part of the Adobe Creative Suite, is a web authoring and web animation software that is used industry wide. This course is for students who want a deeper understanding of the program. No previous experience with this software is required. CSU

**CIS-107** Introduction to Web Databases

2 units SC
- 36 hours lecture/18 hours laboratory per term
- Recommended: CIS-100 or CIS-101 or equivalent
- Note: Credit by examination option available. Students may petition to repeat this course when software or hardware is changed. Only the first course completed will be applied toward a degree or certificate requirement. Units for both courses will apply towards the 60 units required for the degree.

This course presents the fundamentals of database-driven web page development. Topics will include basic database configuration, the use of server-side tools to connect to a database, and the display and manipulation of database content over the web. CSU
CIS-108 Introduction to WordPress
2 units SC
- 36 hours lecture/18 hours laboratory per term
- Recommended: CIS-100 or CIS-101 or equivalent
- Note: Credit by examination option available. Students may petition to repeat this course when software or hardware is changed. Only the first course completed will be applied toward a degree or certificate requirement. Units for both courses will apply towards the 60 units required for the degree.

This course introduces students to WordPress. This easy to use software is used to create, organize, and maintain web sites. Emphasis is placed on installation, configuration, navigation, organization, presentation, and maintenance of web sites. No previous web design experience is required. CSU

CIS-115 Microsoft Word - Comprehensive
2 units SC
- 36 hours lecture/18 hours laboratory per term
- Recommended: CIS-100 or CIS-101 or equivalent
- Note: Credit by examination option available. Students may petition to repeat this course when software or hardware is changed. Only the first course completed will be applied toward a degree or certificate requirement. Units for both courses will apply towards the 60 units required for the degree.

This course is for students who want to learn the comprehensive functions of Microsoft Word, a powerful word processing program which is part of the Microsoft Office Suite. This course prepares students for Microsoft certification testing but is also useful for students who want a deeper understanding of the program. No previous experience with this software is required. CSU

CIS-116 Microsoft Excel - Comprehensive
2 units SC
- 36 hours lecture/18 hours laboratory per term
- Recommended: CIS-100 or CIS-101 or equivalent
- Note: Credit by examination option available. Students may petition to repeat this course when software or hardware is changed. Only the first course completed will be applied toward a degree or certificate requirement. Units for both courses will apply towards the 60 units required for the degree.

This course is for students who want to learn the comprehensive functions of Microsoft Excel, a powerful spreadsheet program which is part of the Microsoft Office Suite. This course prepares students for Microsoft certification testing but is also useful for students who want a deeper understanding of the program. No previous experience with this software is required. CSU

CIS-117 Microsoft Access - Comprehensive
2 units SC
- 36 hours lecture/18 hours laboratory per term
- Recommended: CIS-100 or CIS-101 or equivalent
- Note: Credit by examination option available. Students may petition to repeat this course when software or hardware is changed. Only the first course completed will be applied toward a degree or certificate requirement. Units for both courses will apply towards the 60 units required for the degree.

This course is for students who want to learn the comprehensive functions of Microsoft Access, a powerful database program which is part of the Microsoft Office Suite. This course prepares students for Microsoft certification testing but is also useful for students who want a deeper understanding of the program. No previous experience with this software is required. CSU

CIS-118 Microsoft PowerPoint - Comprehensive
2 units SC
- 36 hours lecture/18 hours laboratory per term
- Recommended: CIS-100 or CIS-101 or equivalent.
- Note: Credit by examination option available. Students may petition to repeat this course when software or hardware is changed. Only the first course completed will be applied toward a degree or certificate requirement. Units for both courses will apply towards the 60 units required for the degree.

This course is for students who want to learn the comprehensive functions of Microsoft PowerPoint, a powerful presentation program which is part of the Microsoft Office Suite. This course prepares students for Microsoft certification testing but is also useful for students who want a deeper understanding of the program. No previous experience with this software is required. CSU

CIS-119 Microsoft Outlook - Comprehensive
2 units SC
- 36 hours lecture/18 hours laboratory per term
- Recommended: CIS-100 or CIS-101 or equivalent
- Note: Credit by examination option available. Students may petition to repeat this course when software or hardware is changed. Only the first course completed will be applied toward a degree or certificate requirement. Units for both courses will apply towards the 60 units required for the degree.

This course is for students who want to learn the comprehensive functions of Microsoft Outlook, a powerful email and personal information manager program which is part of the Microsoft Office Suite. This course prepares students for Microsoft certification testing but is also useful for students who want a deeper understanding of the program. No previous experience with this software is required. CSU
CIS-120  iPhone and iPad App Development for Beginners
2 units  SC  
- 36 hours lecture/18 hours laboratory per term
- Recommended: CIS-100 or CIS-101 or equivalent.
- Note: Credit by examination option available. Students may petition to repeat this course when software or hardware is changed. Only the first course completed will be applied toward a degree or certificate requirement. Units for both courses will apply towards the 60 units required for the degree.

This course introduces students to application (app) development for iPhone and iPad devices. Essentials of iPhone and iPad app development including tools, frameworks, and concepts are covered. Hands-on exercises will be used to reinforce theory. No previous app development experience is required. Students will learn the essentials of iPhone and iPad app development: the tools, frameworks, and concepts. Hands-on exercises will be part of this course. CSU

CIS-130  Adobe Photoshop Elements
2 units  SC  
- 36 hours lecture/18 hours laboratory per term
- Recommended: CIS-100 or CIS-101 or equivalent
- Note: Credit by examination option available. Students may petition to repeat this course when software or hardware is changed. Only the first course completed will be applied toward a degree or certificate requirement. Units for both courses will apply towards the 60 units required for the degree.

This course helps students to develop proficiency in Adobe Photoshop Elements; it covers acquiring, organizing, fixing, enhancing and sharing images. CSU

CIS-132  Adobe Premiere Elements - Comprehensive
2 units  SC  
- 36 hours lecture/18 hours laboratory per term
- Recommended: CIS-100 or CIS-101 or equivalent
- Note: Credit by examination option available. Students may petition to repeat this course when software or hardware is changed. Only the first course completed will be applied toward a degree or certificate requirement. Units for both courses will apply towards the 60 units required for the degree.

This course will allow students to gain proficiency in Adobe Premiere Elements, covering video acquisition, editing, titling, web and DVD authoring. CSU

CIS-133  Developing Video Content for the Web
2 units  SC  
- 36 hours lecture/18 hours laboratory per term
- Recommended: CIS-100 or CIS-101 or equivalent
- Note: Credit by examination option available. Students may petition to repeat this course when software or hardware is changed. Only the first course completed will be applied toward a degree or certificate requirement. Units for both courses will apply towards the 60 units required for the degree.

This course prepares students to take digitally formatted video and prepare it for use on the Internet. Students will learn how to import digital video, create screen captures, edit, and produce video for distribution via online and other digital media. CSU

CIS-135  Topics in Computer Information Systems
.3-.4 units  SC  
- Variable hours

A supplemental course in computer information systems to provide a study of current concepts and problems. Specific topics will be announced in the schedule of classes. CSU

CIS-160  Introduction to MySql
2 units  SC  
- 36 hours lecture/18 hours laboratory per term
- Recommended: CIS-100 or CIS-101 or equivalent
- Note: Credit by examination option available. Students may petition to repeat this course when software or hardware is changed. Only the first course completed will be applied toward a degree or certificate requirement. Units for both courses will apply towards the 60 units required for the degree.

This course introduces students to the MySql database program, which is used to create, organize, and maintain dynamic web sites. Emphasis is placed on table creation, queries, and database management. CSU

CIS-170  Networking for Non-IT Professionals
2 units  SC  
- 36 hours lecture/18 hours laboratory per term
- Note: Credit by examination option available. No previous networking experience is required. Students interested in professional training in computer networking should see the Computer Network Technology (CNT) programs in this catalog.

This course presents the basics of networking and introduces the core networking topologies, implementation options and commonly used network devices, such as Network Interface Cards (NICs), hubs, switches, and routers. Emphasis is placed on networking theory and implementation specifically designed for small office and home networking environments. CSU
Computer information systems

**CIS-180  Introduction to Project Management**

3 units  SC  
- 54 hours lecture per term  
- **Note:** Credit by examination option available  

This is an introductory course in professional project management. This course prepares students to become project management professionals by defining its origins and introducing key base concepts, terminology, and processes. The foundation work developed here will prepare students to continue in the project management course of study. This course requires no previous experience with project management. CSU

**CIS-181  Project Management/PMI PMP Preparation**

3 units  SC  
- 54 hours lecture per term  
- **Recommended:** CIS-180 or equivalent  
- **Note:** Credit by examination option available  

This course is an intermediate course on formal professional project management. This course prepares the student to take the internationally recognized Project Management Institute (PMI) Project Management Professional (PMP) certification exam. Earning a PMP certification demonstrates that the student has acquired the skills to manage projects, deliver products and has a solid knowledge of PMP fundamentals. CSU

**CIS-182  Project Risk Management**

3 units  SC  
- 54 hours lecture per term  
- **Recommended:** CIS-180 or equivalent  

This course presents an introduction to the risks associated with the management of projects. The skills needed to manage risks associated with projects, deliver projects based on a solid plan and mitigate any risk factors to those projects, will be examined. CSU

**CIS-185  Project Management Tools**

2 units  SC  
- 36 hours lecture/18 hours laboratory per term  
- **Recommended:** CIS-100 or CIS-101 or equivalent  
- **Note:** Credit by examination option available. Students may petition to repeat this course when software or hardware is changed. Only the first course completed will be applied toward a degree or certificate requirement. Units for both courses will apply towards the 60 units required for the degree.  

This course introduces students to software tools used in project management such as, MS Visio and MS Project. Students will create, save and publish, flow charts, diagrams and task lists. In addition, students will set up and assign project resources, track progress on tasks, organize and format project details, and publish project information. CSU
