

## Here are SLOs for DVC students:

### What are SLOs?

SLOs are “student learning outcomes”. The college is making a definite effort to intensify its focus on learning. It is doing so by looking at and assessing *all* areas that support learning – not just the classroom and course curricula, but also the overall success of the degree and certificate programs that the courses support, and the student services that support instruction.

Each course that a student takes has published outcome statements – its SLOs. Typically there are 3 SLOs for each course, and they cover the main expectations for the course. They can tell the student what they can expect when they complete that course.

### Where to find the published SLOs for your course(s)

Find the [online search form](#) on [www.dvc.edu](http://www.dvc.edu), in the “Offices/departments” quick link (or start in any division or department web pages), “Information and publications” navigation menu fly-out, “Student learning outcomes” link, then the “Search and list” navigation link. The form is self-explanatory.

**Search for course and program outcomes** Previous Page

Home > Offices and departments > Information and publications > SLOs >

List  student learning outcomes

for , or

for , or

for  Or , or

search for courses with  in the description,

or type a course number (e.g., ENGL-122)

updated 10/20/2009 1:40:56 PM

Also, you may find SLOs listed in your syllabus, or your syllabus may contain a URL, such as [www.dvc.edu/slos?ENGL-122](http://www.dvc.edu/slos?ENGL-122).

### Finding courses which have certain outcomes

Students can also use the search form (shown above) to find courses with specific content. For example, a student might be interested in DVC courses that teach office skills – another might want to learn to play the guitar. Just type a keyword or phrase into the “search for courses with...in the description” box, and a list appears with all the DVC courses whose learning outcomes match. For example, do you want to learn how to include Flash in your website? Check it out:

search for courses with  in the description,  
or type a course number (e.g., ENGL-122)

---

**Results for courses matching [Flash]**

**1. ARTDM-175: Flash Interactivity**
