OVERVIEW

In February 2017, the California Community Colleges Chancellor's Office (CCCCO) have undertaken efforts to integrate three programs: Basic Skills Initiative (BSI), Student Equity Program (SE), and Student Success and Support Program (SSSP). The justification for identifying these programs in particular as a starting point is for two main reasons: 1) all three have the same ultimate goal of increasing student success while closing achievement gaps; and 2) there is a strong potential for overlap between and among the programs (CCCCO Memo, 2017).

INTEGRATED GOALS

In an effort to increase coordination among programs and to align student success initiatives, the Diablo Valley College 2017-2019 Integrated Plan for the Student Success and Support Program (SSSP), Student Equity (SE), and the Basic Skills Initiative (BSI) promotes integrated planning and program coordination at the district and college level. The development of the plan went through DVC's governance process and was in consultation with students through Associated Students of DVC (ASDVC), classified professionals through the Classified Senate, faculty through Academic Senate, and administrators.

The DVC 2017-19 Integrated Plan identified five goals:

G1: Increase the percentage of students that complete the placement process within their first year.

G2: Increase the percentage of students who successfully complete the pre-college level Math course in which they are placed within their first year.

G3: Increase the percentage of students, placed at the pre-college level, who successfully complete a pre-college level ESL/English course within the first year.

G4: Improve success rates in degree attainment, certificate attainment and transfer.

G5: Develop the campus community's capacity for implementing student centered approaches and practices by:

G5a: Providing professional development support and activities in areas such as: cultural competency, student inclusiveness, and critical empathy.

2017-19 Integrated Plan: Basic Skills Initiative, Student Equity, and Student Success and Support Program

G5b: Supporting the design, development, and carry-out of campus-based research and analysis of the research results.

G5c: Providing Innovation Resources for College Community

GOVERNANCE PROCESS

DVC convened a work group in March 2017 to begin the initial work of mapping the College's three previous plans (SSSP, Student Equity, BSI). While the college was also simultaneously in the process of writing the DVC Educational Master Plan, and with the September release of the State Chancellor's, 2022 California Community College's Vision for Success, it was imperative the development of the 2017-2019 Integrated Plan was in alignment and intersected with these goals. Moreover, the integrated planning process was grounded in existing data, previous plans, additional statewide data, and data collected at the college.

The Advisory Committees for the SSSP, BSI, and Student Equity, as well as the development of the Integrated Plan Writing Team have convened since Spring 2017. Members of the advisory committees are:
