

Kinesiology AA-T

PROGRAM LEARNING OUTCOMES

1. Describe and explain the scholarly study of human movement and its significance to our understanding of physical activity.
2. Assess the importance of physical activity in our daily lives (e.g. recreation, self-expression, health, competition)
3. Differentiate among the sub-disciplines of kinesiology (e.g. history, biomechanics, philosophy) and discuss the knowledge specific to those areas.
4. Demonstrate knowledge in related disciplines required as core preparation for kinesiology majors (e.g. chemistry, biology, physics, statistics).
5. Apply a variety of research methods to locate and use appropriate information from various sources.

■ Required
● Elective
● IGETC category
 * This course has prerequisites.

You need to see a Counselor for specific recommendations about courses that will best meet your educational goals. Not all courses on the map are offered every term. Consult the Catalog and the Schedule of Classes for more details.
