Careers in

- Digital media industry

PROGRAM LEARNING OUTCOMES

1. Demonstrate an understanding of basic drawing techniques.
2. Produce a digital image from scanned or digital photographs.
3. Utilize digital images for exports to websites, multimedia presentations, and print.
4. Utilize production tools for digital audio for multimedia projects.
5. Demonstrate basic techniques for video capture and editing.
6. Design a multimedia project.
7. Critically evaluate multimedia design techniques and their use in the development of a professional portfolio.
8. Qualify for entry-level employment in the art digital media field.

Complete 60 degree applicable units along with completion of all required general education requirements. It is highly recommended that you see a counselor for specific courses that will best meet your educational plan/goals. Not all courses on the map are offered every term. Consult the Catalog and the Schedule of Classes for more details.
