

Math AS-T

PROGRAM LEARNING OUTCOMES

1. Solve problems in linear algebra and differential and integral calculus, both single and multivariable.
2. Recognize, explain, and apply basic techniques of mathematical proof.
3. Utilize knowledge and skills from mathematics to solve mathematical problems from sciences such as physics, chemistry, engineering, or computer science.

Complete 60 degree applicable units along with completion of all required general education requirements. It is highly recommended that you see a counselor for specific courses that will best meet your educational plan/goals. Not all courses on the map are offered every term. Consult the Catalog and the Schedule of Classes for more details.
