BEGINNING CONVERSATIONAL ITALIAN 1

In this 6 week course, we will be learning basic conversational skills in Italian, with themes of meeting new people, food, pastimes, and travel. We will be using the first four chapters of the textbook Nuovo Espresso 1 as a guide. This course is for students who have not studied Italian before or studied some Italian in the past and want to refresh and improve their skills and have the opportunity to practice speaking.

All material will be organized in Canvas (online learning management system), with class meetings once per week on Zoom. The optional textbook has an online component for purchase, which will provide additional practice opportunities.

SESSION I: TUESDAYS 2/23-3/30 OR SESSION II: TUESDAYS 4/6-5/11 TIME: 5:00-6:30PM
COST: $95
LOCATION: ZOOM

BEGINNING ITALIAN CONVERSATION 2

LOCATION: ZOOM

MEET THE AUTHORS

JO MELE

Join the following authors on May 12, from 11-1. The authors will describe their writing methods, read from their work, and answer questions.

- Camille Minichino, with four pen names to her credit, has published 28 cozy mysteries. She is a long-time Emeritus College Instructor.
- Ann Parker, award-winning author of The Silver Rush historical mystery series set in the "Victorian West" of the 1880's.
- Jo Mele, author of The Odd Grandmothers, a memoir of three generations of her family - the 1st, 3rd, and 5th
- Jim Brennan, author of Father's Day, the story of a teacher and student who help each other deal with the burdens of love and loss.
- David Flower, author of Bandits in Belgium a cozy mystery in the Travel Mystery Series. Master of Ceremonies
- Chuck McFadden, Author of Trailblazer, a biography of Jerry Brown.

SATURDAY 5/12 TIME:11:00AM-1PM COST:$25
LOCATION: ZOOM
FITNESS FOREVER

This class provides an organized group exercise program. Throughout the week the class will focus on flexibility, stretching, cardiovascular, strength and endurance training. We incorporate a mix of exercise routines in a modern, clean and efficient gym facility. Our weekly routine includes floor exercises, abdominal work, stretching, balance, spinner cycles, elliptical machines, treadmills, weight lifting and a super circuit. All fitness levels are welcome. Our class accommodates those just beginning an exercise routine, seeking better health as well as those looking to expand their existing routine.

MONDAYS, WEDNESDAYS & FRIDAYS 2/22-5/21 TIME:7-8AM COST:$125
LOCATION: DVC PLEASANT HILL CAMPUS

SHERRY AYRES

This is a physical activity course designed for all fitness levels and ages. All students will be introduced to basic yoga poses. Participants will learn the names of poses, how to safely perform the poses, and modifications of poses to be used when needed. Participation in yoga can help with focus, stress reduction, and improved flexibility.

SATURDAYS 2/27-5/15 TIME:9-10AM COST:$100

CLASSICAL MASTERWORKS
DR. A.D. MOBLEY
Classical Masterworks will offer a survey of the great musical compositions of Western Music from antiquity to the present - from the ancient world to the present. The course will be listening-centered with a focus on great performances, the composers' individual histories & inspirations, as well as the technical aspects of the compositions. (Students do not need to read music in order to fully enjoy this great course!

FRIDAYS 4/2-4/30 TIME:1-2PM COST:$65
LOCATION: ZOOM

ANXIETY & DEPRESSION, FIND HOPE WHEN ALL SEEMS LOST
DR. MAGDY M. HUSSEIN
This course is about a real journey into the world of anxiety and depression. If you are currently suffering from these conditions, then you can understand how difficult it can be to simply get up in the morning and try to live a normal life. The truth is that there are days when you just cannot, and it’s hard to make it through the day, but you try your hardest to do it. You try so hard to live a normal life. But it’s like walking around with a boulder around your neck. It has been a long road for me. That is why I wanted to share this book, Hello... Goodbye. I want others who are going through anxiety and depression to know that they are not alone; that they do not have to suffer in silence. In fact, if you are going through this right now, I want you to know that there is nothing wrong with you. If anything, you are so brave and so strong!

THURSDAYS 4/8-4/29 TIME:6-7:30PM COST:$75
LOCATION: ZOOM

COMMUNITY LAP SWIM
JAREN LOPEZ
The DVC Community Ed program is offering an 8-week 16 session lap swimming opportunity.

CAREER OPPORTUNITIES IN CANNABIS INDUSTRY
RESTRICTION: (PARTICPANTS MUST BE 21+)

MICHAEL MILLER & MARIAM WORSHAM

A class for those who want to explore LEGAL employment opportunities in one of the fastest growing industries in California and across the US. This course will present information to assist students in understanding employment opportunities in this and related industries. Instructors will create an academically rigorous, yet supportive and collaborative classroom environment where ideas, concerns, and career opportunities will be presented and discussed.

SESSION I TUESDAYS 2/23-3/30 OR SESSION II WEDNESDAYS 3/24-5/5 TIME:6-7:30PM COST:$95
LOCATION: ZOOM

CHALLENGES IN GLOBAL SECURITY

IVAN NERONI

This course introduces current changes to world security and challenges that different countries face in our current political, social, economic environment. The course will help the student understand what kind of world security issues directly affect how countries change their security strategies and how the U.S. adapts and responds to the different strategies other countries implement.

TUESDAYS 4/13-4/27 TIME:4-5PM COST:$55
LOCATION: ZOOM

A SHORT HISTORY OF PANDEMIC DISEASE

DAVID POWELL

We have been riveted by the global spread of the novel Coronavirus. Many significant questions are still under investigation. How did it start? How will it end? How do we gather accurate data/information? What lasting damage is done to survivors now known as “long haulers”? Why has there been such differential impact between communities? The course will examine these questions through three different lenses: historical, technological, and environmental.

- The Historical allows us to look back at the similarities/differences with previous pandemics.
- The technological will allow us to examine the impact of newly emerged capabilities such as Vaccine mRNA platforms and the impact of genomic epidemiology.
- The environmental will allow us to consider the impact of human expansion and climate change, resulting in contact with species with unusual viral profiles, thus increasing the odds of repeated emergence of zoonotic disease.

MONDAYS 3/1-3/29 TIME:1-3PM COST:$75
LOCATION: ZOOM

INTERNATIONAL FRICTION AND POTENTIAL WORLD CONFLICTS

DR. MICHAEL BAKER

In this two hour lecture we will discuss how to evaluate the news of other countries and look at problems outside our immediate view that may ultimately harm the USA. Problems fester in numerous conflict zones around the globe where many people die every day. Rising nationalism and ethnic strife can result in many of these to erupt into a major conflict leading to nuclear exchange. The UN notes 10 million refugees on the move at present, a Covid-19 pandemic is raging, and climate change progressively disrupts ecosystems. All signs point to more conflict over resources.

WEDNESDAY 3/10 TIME:10AM-12PM COST:$25
LOCATION: ZOOM

SOFT POWER, HARD POWER, AND COVERT POWER -- HOW THE CIA RAN AMOK

DR. MICHAEL BAKER

This lecture will discuss how in the covert effort to oppose the worldwide spread of "communism", the US unleashed the CIA to topple governments, assassinate opponents, and derail national movements that were more about national liberation than ideology. This effort to oppose "communism" also led to the support of numerous dictators such as the Shah of Iran and the Somozas in Nicaragua, and dominated American Foreign Policy between World War 2 and the Vietnam War. These actions led to the Bay of Pigs fiasco, the Iran-Contra scandal, and possibly enhanced the drug pipeline from Central America into the USA. The covert activity of the CIA was flawed and in some ways probably did not really serve America's best interests.

TUESDAY 5/4 TIME:10AM-12PM COST:$25
LOCATION: ZOOM

TRIAGE AND FIRST RESPONSE – HOW TO PREPARE YOURSELF AND YOUR FAMILY FOR DISASTERS AND MASS CASUALTY EVENTS

DR. MICHAEL BAKER

This class will cover the principles of triage and assessing injured people in various types of disasters, and teach a tactical approach to decision making. An overview of how triage is done, how to decide which patient to send to medical care first, and what you should learn to treat at the scene is provided. Scenario based lecture with audience questions leads to discussion of CERT training and Stop the Bleeding efforts for preparedness. The class will segue into disaster planning and readiness: do you have food, water, power available if everything is broken?? The class will get an overview and learn about personal and family preparation for a disaster.

THURSDAY 4/15 TIME:4PM-6PM COST:$25
LOCATION: ZOOM
SMART BRAIN AGING
DR. DEBORAH CAHN-WEINER

Americans are living longer, and the risk of developing dementia such as Alzheimer's disease increases with age. Age-related cognitive changes occur naturally as well, so strategies to improve and maintain brain health are critically important. The goal of this course is to provide information on research-based recommendations for ways to improve and maintain brain health as we age, including lifestyle factors and exercise.

Mondays 4/5-4/26 Time: 9-11AM Cost: $75
Location: Zoom

THE GOLDEN AGE OF HOLLYWOOD
CHARLES MCFADDEN

It was an era of big stars, big egos and big studios. It was Hollywood's Golden Age. Clark Gable, Fred Astaire, Lana Turner and Elizabeth Taylor, along with Louis B. Mayer and Samuel Goldman were just a few of the bigger-than-life personalities who made Hollywood the entertainment center of the world. MGM, Paramount, Columbia and Warner Bros. were the dream factories who kept millions around the world enthralled. Take a surprising behind-the-scenes look at it all!

Friday 3/19 Time: 10-11AM Cost: $20
Location: Zoom

PARADIGM SHIFTS IN SCIENCE AND SOCIETY
CAMILLE MINICHIINO

This class will focus on "big questions" through history, and how science and technology have not only given us answers, but have changed the questions. You will have an opportunity to recognize how different societies have responded to revolutions in science and technology and to explore how science and technology have affected your own cultural and personal values.

Saturday 4/3 Time: 12-2PM Cost: $25
Location: Zoom
College Prep Academy

Financial Aid, Scholarships and more: Money for College
Free Workshop
Saturday 3/20/2021 or 4/17/2021
Zoom 10:30-11:30am

It’s time to figure out what your child’s education will really cost you down the road. Unfortunately, that’s not as simple as checking a college’s website for the “sticker price”. Just like no two colleges are alike, neither is paying for college. Learn how to navigate through the red tape and find out how financial aid, scholarships, and grants can be a major factor in deciding where your child can go to school. Private and public colleges financial sources will be discussed.
*Must be registered to receive an invitation to the class.

Study Skills $40
Saturday 3/20/2021 or 4/10/2021
Zoom 10-11:30am
Saturday 4/17/2021
Time: 10am-2pm
DVC Pleasant Hill Campus
In person

Assess and develop further your current study patterns, know the principles and acquire the techniques to successfully "learn how to learn". Learn time management, taking notes, preparing for and taking tests, how to study, set goals, and improve your memory.

All About Adulting $50
Saturdays 4/17/21- 4/24/21
Zoom 11am-1pm

All About Adulting will offer students a chance to investigate topics that will better help them to understand the transition from young adult to adulthood. The term Adulting has become quite popular over the last few years because it focuses on the skills and resources that are no longer taught in schools. There will also be a hands-on opportunity to explore the applicable skills and resources needed to prepare students for adulthood and beyond. Students will learn about the life skills and checkpoints that they need to know when they go out into the world on their own.
Self Editing and Grammar Brush Up
$50
Saturday 4/24/2021
Time: 10am-2pm

College Admissions Essay and Expository Writing
$50
Saturday 5/1/2021
Time: 10am-2pm

Research Writing Bootcamp
$50
Saturday 5/8/2021
Time: 10am-2pm

This four hour course will offer a review and skill development on self-editing written work in anticipating of college preparation. Interactive practice will focus on typical grammar skills necessary for success in high school and college.

This four hour course will introduce high school students to skills necessary to writing a college admissions essay. Topic selection, refining content and the purpose for writing are subjects included in the class. Additional expository writing skills for formal correspondence in seeking job or volunteer positions will be covered.

This four hour course will introduce high school students to skills necessary to writing a research project, including: topic selection; thesis development; annotated sources. A one-page, referenced essay will be completed during by the conclusion of the class.
Youth Program
(3rd-12th Grade)

Geo-Art $75  
[Zoom]
(4th-6th grade)
Get ready for Geometry and Art to collide in GEO-ART!!! This fun, hands-on course will have students creating dazzling art pieces, while learning basic geometric principles. Every class is project-based, with emphasis on creativity. Students will learn how to make symmetry pop-up cards, fantastic fractal patterns, terrific tessellations, magnificent mandalas, and more. Explore the beauty of mathematics in art, through Geo-Art!

Saturdays 4/17-5/8
10am-12pm

World of Dance $115  
[Zoom]
(3rd-6th grade)
This course explores different styles of dance from around the world and how those styles have become integrated into the popular dances taught in today’s modern classroom. Saturdays 4/10- 5/15
1-3pm
Youth Program
(3rd-12th Grade)

**Teen Yoga $100**
(7th-9th grade)

This is a physical activity class designed for teens of all fitness levels. All students will be introduced to basic yoga poses. Participants will learn the names of poses, how to safely perform the poses, and modifications of poses to be used when needed. Participation in yoga can help with focus, stress reduction, and improved flexibility. Cooperative games will be incorporated to help improve the mind/body connection.

**Saturdays 2/27- 5/15**
10:15-11:15am

**Tween Yoga $100**
(4th-6th grade)

This is a physical activity class designed for kids/tweens of all fitness levels. All students will be introduced to basic yoga poses. Participants will learn the names of poses, how to safely perform the poses, and modifications of poses to be used when needed. Participation in yoga can help with focus, stress reduction, and improved flexibility. Games will be utilized to help students learn about yoga. Cooperative games will be incorporated to help improve the mind/body connection.

**Saturdays 2/27- 5/15**
11:30am-12:30pm

**Introduction to Cinematography & Digital Editing $150**
(7th-9th grade)

Students can expect to learn and demonstrate fundamental and intermediate cinematography techniques through instruction and socially distanced hands-on training. Over time, students will exercise what they will learn to create a narrative short film and an experimental short film. Students will also be taught how to edit their films using film industry digital editing techniques and industry-grade editing software. All students are encouraged to enroll whether they are a beginner or advanced. No matter what level the student is, they will enjoy a fun and educational experience while being given the guidance and tools to push their abilities far beyond their expectations.

**Saturdays 3/6-4/10**
10am-1pm or 1:15-4:15pm

**3D Computer Modeling & 3D Printing $115**
(5th-9th grade)

Learn the basics of 3d Modeling to design everyday objects, then using 3D printers to bring them to life.

**Saturdays 2/27- 3/20**
9am-12pm
Youth Program
(3rd-12th Grade)

**Math Support $75**
(3rd-5th)

This class is designed for students who could benefit from the face to face interaction with instructors to learn, practice, or advance in their 3rd-5th grade math skills. Disciplines include but are not limited to the following:
- adding
- subtracting
- understanding the meaning of multiplication within 100 and division and strategies.

**Saturdays 3/6- 4/3**
9:30-10:30am

**Geometry $75**
(7th-9th)

This class is designed for students who could benefit from the face to face interaction with instructors to learn, practice, or advance in Geometry. Students will learn the mathematical tools necessary for them to exceed in their school’s Common Core Standard Geometry class and math classes beyond. Topics covered include: congruence, lines and angles, triangles and trigonometry, circles, and modeling the real world with geometry. Instructors will create an academically rigorous, yet supportive and fun.

**Saturdays 3/6- 4/3**
12-1pm

**Algebra $75**
(7th-9th)

This class is designed for students who could benefit from the face to face interaction with instructors to learn, practice, or advance in Algebra. Students will learn the mathematical tools necessary for them to exceed in their school’s Common Core Standard Algebra class and math classes beyond. Topics covered include: prime numbers, solving equations, exponents, inequalities, linear equations, polynomials, and functions. Instructors will create an academically rigorous, yet supportive and fun.

**Saturdays 3/6- 4/3**
10:45-11:45am

**Cartooning $75**
(6th-8th)

This class is designed to present different techniques of cartooning and taking a look at different styles. Students will learn how to draw famous characters from TV, comics, movies, and video games.

**Wednesdays 3/3- 3/24**
3-4:30pm

**Basic Drawing $75**
(4th-6th)

Students will learn to apply the elements and principles of design as they learn various drawing techniques. Several types of drawing will be explored, as well as different subject matter.

**Saturdays 3/6- 3/27 or 4/3-4/24**
10-11:15am
Youth Program
(3rd-12th Grade)

Dynamic Drawing $75
(4th-8th)

This course is designed to help learn how to turn ordinary drawings into extraordinary. In this course we will learn how to draw exciting scenes with characters in action, exemplifying wide-ranging emotions from many different angles and poses. We will bring our dynamic thoughts into dynamic drawings that capture the excitement in everyday life!

Saturdays 3/6- 3/27 or 4/10-5/1
1-2:30pm

Watercolor Painting out of Drawings $95
(4th-8th)

This course is designed to step up our dynamic creativity and explore our artistic palette. We will add further depth to our drawings by applying a spectrum of colors in spectrum of tones to create realistic effects. We will explore the different ways to change our drawings by simply adding some paint!

Saturdays 3/6- 3/27 or 4/10-5/1
2:45-4:15pm

Abstract Painting $95
(6th-9th)

Abstract art is not "about nothing". At its basis, it is about form, color, line, texture, pattern, composition and process and feeling. It's also a language of seeing. In this class you will learn techniques to express your emotions through color and composition. You will explore what art looks like (in many forms) and how it is created. This class will incorporate drawing, painting and three dimensional materials. No experience necessary, just a willingness to explore and have fun!

Saturdays 3/6- 3/27 or 4/3-4/24
11:30am-12:45pm

The Atoms Family $85
(4th-6th)

This class is all about the wonders and mysteries of chemistry. Do you ever wonder why and how the stuff around us works? Did you know that chemistry is all around us, every second of every day? This class will help us understand and answer why and how stuff works and interacts, like the soap we use to wash our hands! Together, let's explore the (c)ontic world of chemistry!

Saturdays 3/6- 4/3
12-1:20pm or 1:30-2:50pm

Self Expression Through Art $100
(4th-6th) & (9th-12th)

This course is about helping students understand their psychological journey through art. A huge part of psychology is to understand yourself and others. Art is one of the best ways to really internalize that lesson. Art is the expression of human creative skill and imagination producing works to be appreciated primarily for their beauty or emotional power. Through this class students will learn how to understand what's going on in their lives, but most importantly they will learn how to express it in a healthy way. Students will create and take 3-4 projects home.

Grades 4th-8th
Saturdays 3/6-4/3 or 4/10-5/15
10am-12:30pm

Grades 9th-12th
Saturdays 3/6-4/3 or 4/10-5/15
12:45-2:15pm
Refunds & Cancellation Policies – Students who wish to drop a class, must do so no less than 7 days prior to the start date of class or they will not receive a refund. Credit card refunds are processed through the online registration system within 7-10 business days. Refunds via check are processed by the District Office and take approximately 2-3 weeks until mailed. If a class is canceled by DVC Community Education at any time, students will receive a full refund for course fees paid, minus 2.5% convenience fee for credit card payments.

Fees – Community Education is a self-supporting, fee-based program and is not funded by taxpayer dollars.

Age Requirements – All Community Education classes are open to ages 14 years of age or older, specific grade level ages, or unless stated otherwise.

Parking – No permit is required on Saturdays and Sundays at DVC Pleasant Hill Campus. For current info please visit www.dvc.edu/parking

Disability Accommodations – Diablo Valley College is ADA compliant. If you have special needs, please contact the Community Education Office at (925) 969-4600 or communityed@dvc.edu.

CAMPUS SOCIAL DISTANCING GUIDELINES - FACE COVERING PROTOCOL

STUDENTS, VISITORS, AND EMPLOYEES OF DIABLO VALLEY COLLEGE MUST WEAR APPROPRIATE FACE COVERINGS AT ALL TIMES WHEN ON CAMPUS.

THIS INCLUDES:
• ALL CLASSROOMS,
• ALL COMMONLY SHARED WORK SPACES,
• ALL CAMPUS SERVICE AREAS,
• ANY AND ALL PUBLIC CAMPUS SPACES INSIDE OR OUTSIDE.

IN ADDITION:
• DO NOT ENGAGE IN ANY UNNECESSARY PHYSICAL CONTACT SUCH AS SHAKING HANDS.
• MAINTAIN A DISTANCE OF 6FT WHENEVER POSSIBLE
• ALL IN PERSON (FACE TO FACE) CLASSES WILL BE LIMITED IN CAPACITY ACCORDING TO COUNTY HEALTH GUIDELINES
• PROPER SANITATION WIPES WILL BE PLACED IN CLASSROOMS
• JANITORIAL SERVICES WILL DEEP CLEAN CLASSROOMS EVERY DAY IN USED

For more information please visit; www.cdc.gov/coronavirus
Face Covering Do’s and Don’ts:

**DO:**
- Make sure you can breathe through it
- Wear it whenever going out in public
- Make sure it covers your nose and mouth
- Wash after using

**DON’T:**
- Use if under two years old
- Use surgical masks or other PPE intended for healthcare workers

How to Protect Yourself and Others

**Know how it spreads**
- There is currently no vaccine to prevent coronavirus disease 2019 (COVID-19).
- The best way to prevent illness is to avoid being exposed to this virus.
- The virus is thought to spread mainly from person to person.
- Between people who are in close contact with each other (within about 6 feet).
- Through respiratory droplets produced when an infected person coughs, sneezes, or talks.
- These droplets can land in the mouths or noses of people who are nearby or possibly be inhaled into the lungs.
- COVID-19 may be spread by people who are not showing symptoms.

**Everyone should**

**Clean your hands often**
- Wash your hands often with soap and water for at least 20 seconds especially after you have been in a public place, or after blowing your nose, coughing, or sneezing.
- If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol.
- Cover all surfaces of your hands and rub them together until they feel dry.
- Avoid touching your eyes, nose, and mouth with unwashed hands.

**Avoid close contact**
- Limit contact with others as much as possible.
- Avoid close contact with people who are sick.
- Put distance between you and other people.
- Remember that some people without symptoms may be able to spread virus.
- This is especially important for people who are at higher risk of getting very sick.

**Cover your mouth and nose with a mask when around others**
- You could spread COVID-19 to others even if you do not feel sick.
- Everyone should wear a mask in public settings and when around people not living in their household, especially when social distancing is difficult to maintain.
- Masks should not be placed on young children under age 2; anyone who has trouble breathing, or is unconscious, incapacitated or otherwise unable to remove the mask without assistance.
- The mask is meant to protect other people in case you are infected.
- Do NOT use a facemask meant for a healthcare worker.
- Continue to keep about 6 feet between yourself and others. The mask is not a substitute for social distancing.

**Cover coughs and sneezes**
- Always cover your mouth and nose with a tissue when you cough or sneeze or use the inside of your elbow.
- Throw used tissues in the trash.
- Immediately wash your hands with soap and water for at least 20 seconds. If soap and water are not readily available, clean your hands with a hand sanitizer that contains at least 60% alcohol.

**Clean and disinfect**
- If surfaces are dirty, clean them. Use detergent and soap or water prior to disinfection.
- Then, use a household disinfector. You can see a list of EPA-registered household disinfectants [here](http://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/disinfecting.html).
