Mission

Diablo Valley College is passionately committed to student learning through the intellectual, scientific, artistic, psychological, and ethical development of its diverse student body. DVC prepares students for transfer to four-year universities; provides career and technical education; supports the economic development of the region; offers pre-collegiate programs; and promotes personal growth and lifelong learning.

DVC Institutional learning outcomes

Diablo Valley College students will gain knowledge, skills, and an appreciation of ethical issues in the following areas:

- **Language and Rationality** - Students will develop the principles and applications of language toward logical thought, clear and precise expression, and critical evaluation of communication in whatever symbol system the student uses.*

- **Natural Sciences** - Students will examine the physical universe, its life forms, and its natural phenomena, develop an appreciation and understanding of the scientific method, and the relationships between science and other human activities.*

- **Arts and Humanities** - Students will examine the cultural activities and artistic expressions of human beings, develop an awareness of the ways in which people throughout the ages and in different cultures have responded to themselves and the world around them in artistic and cultural creation, and develop an aesthetic understanding and an ability to make value judgments.*

*Excerpt from DVC Institutional learning outcomes.

Academic freedom statement

The Contra Costa Community College District affirms its belief in the academic freedom of faculty, management and students to teach, study, conduct research, write and challenge viewpoints without undue restriction.

Members of the college faculty are citizens, members of a learned profession and representatives of an educational institution. When they speak or write as citizens, they should be free from institutional censorship or discipline, but their special position in the community imposes special obligations. As persons of learning with institutional affiliations, they should remember that the public may judge their profession and institution by their statements. Hence, they should at all times be accurate, exercise appropriate restraint, show respect for the opinion of others, and make every effort to indicate that they are not expressing their institution's views.
• Social and Behavioral Sciences - Students will examine social and behavioral sciences that focus on people as members of society, develop critical thinking skills related to the ways people act and have acted in response to their societies, develop an awareness of social and behavioral science methods of inquiry, and develop an appreciation of how societies and social subgroups operate and stimulate.*

• Workplace Skills - Students will develop skills that will allow them to be viable participants in a competitive workplace, e.g. competence in relevant 21st century literacies and effective communication of new knowledge in an ethical and legal manner.

*Title 5 (55063 Minimum Requirements for the Associate Degree)

About this catalog and program requirements
The DVC catalog specifies the requirements to earn a degree or certificate. The requirements in a specific academic year’s catalog are the student’s contract (catalog rights) with the college and that catalog defines which courses the student must complete to earn a degree or certificate.

The information in this catalog describes the anticipated programs, courses, rules, regulations, and fees of Diablo Valley College. These are subject to change at any time. The college disclaims liability for any unintended errors in this publication.

Please see page 50 for more information on catalog rights and continuous enrollment for degrees and certificates.

Schedule of classes
The schedule of classes is presented in multiple formats. A pdf document containing DVC’s class offerings is published online each semester prior to registration, and may be available to purchase in limited quantities at the Book Center. There is also an online searchable class schedule, which is updated daily and includes the most recent information.

Student Resource Guide
The Student Resource Guide is produced annually and contains important information about DVC procedures and resources. The guide is available online at www.dvc.edu/resourceguide.

For a list of items that were previously in the catalog but have been moved to the Student Resource Guide, please see page 382.

COURSE AND PROGRAM OFFERINGS

Degree and certificate programs
DVC offers more than 50 associate degrees and more than 40 certificates of achievement, and a broad selection of certificates of accomplishment. Most associate degree programs can be completed in four terms of full-time study (15 units per term). Certificate programs are generally shorter in length. Length of time to completion will vary based on student course taking patterns. To see the complete list of programs, visit: www.dvc.edu/programs

Day, evening, and summer classes
Classes are taught in the day and evening in full-term and short-term formats. A selection of day and evening classes are also taught during the summer. See the schedule of classes for more information. www.dvc.edu/schedule.

Online and hybrid courses
DVC’s online classes are taught through the internet requiring students to attend very few face-to-face meetings and some classes do not require face to face meetings at all. Hybrid classes use a combination of class meetings and online instruction. To find out more about online classes visit www.dvc.edu/online.

Contract education courses
A contract education course is one that a community college offers under contract pursuant to Education Code section 78021 with a public or private agency, corporation, association, or other organization (title 5, section, 55000). Such courses are not open to general enrollment.

Noncredit course
A noncredit course is one that is approved by the college and district as meeting the needs of enrolled students but that does not award college credit and is not transcribed. Such courses are limited to the following categories: Parent Education, Basic Skills, English as a Second Language, Immigrant Education, Education Programs for Persons with Substantial Disabilities, Short Term Vocational Programs with High Employment Potential, Education Programs for Older Adults, Family and Consumer Sciences, Health and Safety.
