Scholars can earn a scholarship of up to $4,300 for up to three years to jump start your transfer major in science, math, or engineering!

Being a DVC PUMA STEM Scholar will help you:

- Get a strong start in transfer-level math and science courses.
- Develop your skills and mindset as a capable scientist.
- Connect to campus resources and supports.
- Explore major and career options.
- Reach your educational goal.
- Build lasting friendships with students (and faculty!) in STEM!

**INCLUDES:**

- Linked Math and Science Learning Experience
- STEM Student Cohort
- Team-building Retreats
- Peer and Faculty Mentors
- Counseling and Student Retention Supports
- Career Seminars and Internship Opportunities

Starting in **FALL 2021**

PUMA STEM Scholars must enroll in a learning community offered fully online including:

- General Chemistry I (CHEM 120) - 5 units (online)
- Precalculus (MATH 191) - 5 units (online)

**To Join the PUMA STEM Scholars Project:**

- Apply at www.dvc.edu/puma-stem-project
- Attend a PUMA STEM Scholars Information Session
- Register for the PUMA STEM Scholars Learning Community for Fall 2021
- Attend the Fall 2021 Virtual PUMA STEM Scholars Retreat
- Have a fun and successful Fall semester!

**STEM Transfer Students**

Students enrolled in a learning community are more likely to pass their college classes and continue towards their educational goals.
