

How Do I Register Using the Late Add Process?

Adding courses after instruction begins: Students who wish to add a course after classes have started, should first check with the instructor. If space is available, the instructor will provide authorization for you to register into the class through the Student Planning tool. You will receive a notification on InSite and an email to your InSite email account notifying you that you have been authorized to add the class. Once you have been authorized, follow the instructions below.

- 1. Go to <http://m.4cd.edu> (or use the InSite app) and sign in using your username and password.**
- 2. Click on the “Registration” tile, and then “Register from your Ed Plan”.**
- 3. If you have the class entered onto your plan, skip ahead to step 7. If you do not see the class, use the search box in the top right corner to locate the class.**
- 4. Use the search filters to narrow down the results. It is recommended you filter by term, and by subject.**
- 5. Once you see the class you are looking for, click “View Available Sections” to expand the list. Scroll through until you find the correct section, and add the section to your plan.**
