4. Scroll back to the top and click the tab “Distance…” – short for Distance Education which will take you to the Distance Education Supplement

**Distance Education Supplement**

Every course will have the DE Supplement template language.

In the Method(s) of Distance Education dropdown, choose the method you would like for your course - Online, Partially Online/Hybrid, or Both. Choose the option that reflects how the course is going to be taught.

If the drop down is not there (eLumen glitch), type in the box either “100% Online, Partially Online/Hybrid, Both partially online/hybrid and 100% online, or This Course is Not Approved for Distance Education”
You are required to review the approved language and you are required to provide two examples of how SLOs will be assessed using the distance education in the course. This must reference interaction in the learning management system.

Since there is always the possibility of changing the learning management system use the generic term “learning management system.”

Locate at least three web sites relating to the history of policing in the United States and England. Upload to the learning management system, a two-page report on what you found and how it compares to what you have learned in the course. Edit your report based on your instructor feedback and submit for final grading.

Read a chapter on search and seizure and explain how case laws affect an officer’s authority to stop and investigate persons in the field. Post to the discussion board at least two cases by name and how they impact field interrogations. Comment on at least two of your classmates responses.

Submitting Your Course
You can click Save as Draft if you are not ready to submit the course. You can always access it in your Inbox.
