CERTIFICATION OF THE SUBSTANTIVE CHANGE PROPOSAL

DATE: October 28, 2011

TO: Accrediting Commission for Community Colleges and Junior Colleges
Western Association of Schools and Colleges

FROM: Diablo Valley College

This Substantive Change Proposal is submitted in accordance with guidelines set by the Accrediting Commission for Community Colleges and Junior Colleges, Western Association of Schools and Colleges. I certify that this Substantive Change Proposal accurately reflects the status of distance education at Diablo Valley College.

Mr. Peter Garcia
President, Diablo Valley College

Participant List

The following Diablo Valley College campus/district community members participated in the research, discussion and preparation of this proposal. This proposal has been reviewed by the Diablo Valley College Faculty Senate Distance Education Task Force at its meetings of October 6, 2011 and October 18, 2011.

- Lesley Agostino, Administrative Assistant to the Senior Dean of Curriculum and Instruction – Administrative Support to the Curriculum Committee
- Mohamed Eisa, Dean of Planning, Research and Student Outcomes*
- Donna Floyd, Interim Vice President of Student Services**
- Andy Kivel, Interim Library Director
- Susan Lamb, Vice President of Instruction
- Chris Leivas, Vice President of Finance and Administration
- Mojdeh Mehdizadeh, Vice Chancellor Education and Planning
- Nancy Ryanen-Grant, Computer Center Coordinator
- Ben Seaberry, Executive Dean of Information Technology**
- Obed Vazquez, Professor of Sociology and Curriculum Committee Chair
- Chris Wasmund, Media Services Coordinator
- Ted Wieden, Interim Senior Dean of Curriculum and Instruction and Accreditation Liaison Officer

* No longer serving as the Dean of Planning, Research and Student Outcomes – effective July 1, 2011

** No longer with Diablo Valley College

A. Description of Proposed Change and Justification

Description

This Substantive Change Proposal is to report the 22 associate degrees and 53 certificates in which 50 percent or more of the courses are offered through the distance education mode. The proposal also provides the status of the College's General Education (GE) program through the distance education mode.

The complete list of Associate Degrees and Certificates offered through the distance education mode are included in Appendix A.

Relationship to Institutional Mission

The mission statement of Diablo Valley College (DVC) states: "Diablo Valley College is passionately committed to student learning through the intellectual, scientific, artistic, psychological, and ethical development of its diverse student body. Diablo Valley College prepares students for transfer to four-year universities; provides career and technical education; supports the economic development of the region; offers pre-collegiate programs; and promotes personal growth and lifelong learning." (DVC website:

<http://www.dvc.edu/business/about/mission/>) Based on this mission, the College identified as one of its strategic directions to "increase the percentage of students who: transfer; receive relevant and timely training for the workplace and, are proficient in Basic Skills while narrowing the transfer, achievement and proficiency gaps across all subgroups." (DVC website: <http://www.dvc.edu/business/about/mission/strategic.htm>) Many DVC students find that the distance education delivery method meets their needs better than on-campus courses as they attempt to balance work, parenting obligations and physical disabilities which limit their mobility. DVC has offered courses through the distance education mode for over twelve years and has also developed a comprehensive array of instructional and student support services available in a distance education format. Concurrently, the college has developed the processes to monitor, evaluate, and improve the quality of distance education instruction and service.

Rationale for Change

As part of DVC's institutional evaluation, planning, and improvement cycle, the college conducted a review of its course and program offerings in the spring of 2010, including courses approved to be offered via distance education. This review revealed that the number of courses approved to be offered through this mode was significant. Given the results, it appeared likely that the number of DVC degree and certificate programs that could be completed with 50 percent or more courses offered in a distance education mode was also significant.

In light of these considerations, DVC conducted an analysis of its courses and programs in respect to distance education offerings using three different sources of data:

1. The 2010-2011 DVC Catalog, which details all curricular requirements for DVC's certificate and degree programs, and;
2. DVC's Web Curriculum System (WCS) database, which lists all active DVC courses approved to be offered through the distance education mode, and;
3. Hard copy files of actions taken by the DVC Curriculum Committee during the most recent academic year. This was done to ensure that any last minute changes to degree or certificate requirements would be captured.
4. Using this information, each DVC degree and certificate program was analyzed to determine if 50 percent or more of the courses in the program could be completed using coursework taken in a distance education format.

The results of this analysis (included as Appendix B) demonstrated that 77 degree and certificate programs could be completed 50 percent or more via distance education.

B. Description of Educational Programs to Be Offered

All programs proposed to be offered through the distance education mode are already offered through the traditional on-campus mode of instruction. There are no differences in the general education, major, or graduation requirements between the distance education and on-campus versions of the programs.

In addition, DVC has procedures in place to ensure the rigor, breadth, objectives, learning outcomes, and academic quality of courses and programs offered in the distance education mode meet the same standards of those offered in the traditional on-campus mode. Specifically, in accordance with California administrative code and regulation (Title 5), the DVC Curriculum Committee separately reviews and approves each course proposed for delivery via the distance education mode to ensure the following criteria are met:

- Regular effective contact is maintained between instructor and students through group or individual meetings, orientation and review sessions, study sessions, field trips, library workshops, threaded conferencing, chat rooms, telephone contact, email, or other activities.
- Effective pedagogical techniques appropriate to the distance education mode are utilized to ensure the quality and rigor of instruction mirrors that of the on-campus version of the course.
- Appropriate technology is used to achieve the objectives of the course.
- Multiple measures are used to achieve and assess student learning, including reading, writing, and critical thinking assignments and multiple evaluation measures.
- All delivery methods used are accessible to individuals with disabilities, in accordance with state and federal law.

Each certificate and degree program at DVC, including those proposed to be offered in the distance education mode, consists of the following curricular requirements:

Major Courses. Major courses include at least 18 units of required courses and restricted electives.

General Education courses (associate degree only). As a result of ongoing institutional evaluation, planning, and improvement efforts, effective with the 2009-10 catalog, DVC modified its degree requirements in order to provide students with the option to complete one of three different general education patterns. This change was intended to better accommodate each student's individual educational goal. Students select an appropriate general education option in consultation with a counselor. The options are:

1. The DVC General Education Pattern and Contra Costa Community College District (CCCCD) requirements (minimum 18 units)
 - The DVC general education program consists of a minimum of 18 semester units that are divided into the following four areas: natural sciences, social and behavioral sciences, humanities, and language and rationality as well as demonstrated competence in reading, written expression, and mathematics and an information literacy requirement.
 - The CCCCCD requirements include multicultural studies, health education, physical education or dance activities, and American Institutions/California Government
2. The California State University General Education Breadth (CSU GE) Pattern (minimum 39 units)
3. The Intersegmental General Education Transfer Curriculum (IGETC) Pattern (minimum 34 units)

Appendix A provides an update to the list of all DVC courses approved to be offered in a distance learning format that fulfill requirement of one or more of the three general education patterns.

C. Planning Process

In 1999, the DVC Strategic Plan recommended the expansion of distance learning opportunities including the creation of a support position, the Instructional Technology Coordinator, in 2001. Between 2000 and 2005, DVC used Partnership for Excellence and Telecommunications and Technology Infrastructure Program funding to support, among other projects and programs, the development of online courses through stipends and training. Since 2000-2001, the number of online classes has increased steadily from 75 to 280 for the 2005-2006 school year, approaching 7 percent of the schedule in 2007-2008. This trend reached a plateau of approximately 9 percent of the schedule and has held steady over the past few years. The planning efforts of 1999 are coming to fruition as the expansion of distance learning opportunities has provided greater access for more students.

Distance education is within the purview of two committees, the DVC Information Technology Committee and the Faculty Senate Distance Learning Advisory Task Force. The DVC Information Technology Committee is a collegewide, operational committee with the responsibility for making strategic planning and policy recommendations for campus computing, networking and instructional technology applications. The Information Technology Committee meets regularly and reports to the College Council for review and recommendation of the Technology Master Plan. The Distance Learning Advisory Task Force is a committee of the Faculty Senate, and as such, focuses its efforts on curriculum and pedagogy. Overlap occurs between the two in areas associated with selection of the Course Management Software (CMS) and support for online courses.

Planning for online education at DVC takes place primarily in two committees. First, it is addressed at an institutional level in the DVC Information Technology Committee, a participatory governance group that created and annually updates the Technology Master Plan. Members of this group include early adopters of online instruction and representative technology users from across the campus. The co-chairs include the Executive Dean of Information Technology and Services (also the Distance Education Coordinator) and a faculty member selected by the Faculty Senate Council. Effective July 1, 2011, the position of Executive Dean of Information Technology and Services (Executive Dean of IT) was replaced by the Technology Systems Manager. The committee has always included aspects of online learning in its strategic plan, but has taken an even stronger stance on the need for the institution to support distance learning infrastructure and training this year. This is in direct response to input from faculty who teach online.

The position of Distance Education Coordinator was established in 2007, and was assigned to the Executive Dean of Information Technology and Services. This was done in order to clarify that this position oversees all technology on campus, including the institutional support for online distance learning. This brings all of the resources of campus technology together under one administrator and ensures that all campus technology needs are met. This provides the necessary flexibility to better support each area of technology, including online learning.

The second committee that addresses the planning and delivery of online courses at DVC is the Faculty Senate Distance Learning Task Force. This group is chaired by a faculty member and consists of additional faculty members, and until June 30, 2011, the Executive Dean of IT. Currently the management representative on this task force is the Director of Library Services. Between the fall of 2005 and 2007, the task force authored and updated the DVC Online Course Guidelines, the purpose of which is to summarize and document the state and local policies, procedures, practices, regulations and resources related to distance education at DVC. As such, the guidelines refer to DVC practices and procedures, department/division bylaws, union contracts, district policies, State regulation and ACCJC standards. It is intended to serve as a resource and guidelines for faculty, staff and administrators who are interested or involved in distance education. While the Distance Learning Task Force was on hiatus between 2008 and 2010, the DVC Faculty Senate recently reconstituted it in the spring of 2011. Regular meetings began in the fall of 2011. One of the first actions taken by the task force was to review this Substantive Change Proposal prior to submittal to the ACCJC. Future action by this task force will include updating the Online Course Guidelines.

To ensure that all courses approved to be offered in the distance education mode met both DVC's high standards for quality as well as the requirements established by California State Regulations (Title 5), the DVC Curriculum Committee developed the following checklist to be used whenever a course is proposed to be offered in a distance education format. The DVC Curriculum Committee must approve all courses that are to be offered in a distance education format. Faculty must provide the following information:

Distance Education

Method(s) of Distance Education (Checkbox with explanation required for 'Other')	
<input type="checkbox"/>	Telecourse
<input type="checkbox"/>	Online
<input type="checkbox"/>	Hybrid
<input type="checkbox"/>	Other
Rationale for Distance Education Course (Checkbox with explanation required for 'Other')	
<input type="checkbox"/>	Increase Access
<input type="checkbox"/>	Serve New Students
<input type="checkbox"/>	Expand IT Competence
<input type="checkbox"/>	Enhance Student Learning
<input type="checkbox"/>	Other
Title 5 (Section 55211)	
<input type="checkbox"/>	Orientation
<input type="checkbox"/>	Regular Office Hours
<input type="checkbox"/>	Course Web Site
<input type="checkbox"/>	Web Access
<input type="checkbox"/>	Asynchronous Participation
<input type="checkbox"/>	Synchronous Participation
<input type="checkbox"/>	Email Contact
<input type="checkbox"/>	Online Group projects
<input type="checkbox"/>	Face-to-face meetings
<input type="checkbox"/>	Teacher Response
<input type="checkbox"/>	Regular Classroom Instruction
<input type="checkbox"/>	Review Sessions
<input type="checkbox"/>	Field Trips
Students are required to interact with the class and the instructor via the course website. A calendared sequence of assignments and events require student/student and student/instructor interaction on a continuing basis. Student progress is monitored by the instructor and bulletin board discussions and maintains "connectivity" among all members of the class. Hybrid format provides additional regular effective contact through face-to-face meetings.	
Course Delivery Methods	
<input type="checkbox"/>	Online, web based, WebCT software
Faculty Selection	
<input type="checkbox"/>	Qualified faculty would have completed training in an online course management system

Evaluation (Checkbox)	
	Online quizzes/tests/examinations
	Face-to-face Examinations
	Writing Assignments
	Research Paper
	Journal
	Performance
	Portfolio
	Projects
	Online Participation
(1) Web assignments (2) Instructor will evaluate students based on their level of participation and interaction with the class, quality and timeliness of projects submitted, and successful completion of all assignments.	

Planning for distance education courses has been almost exclusively a college effort. In spring 2011 the CCCCD Chancellor’s Cabinet decided to investigate the possibility of having the district purchase the rights to use a single learning management system (LMS) for the entire district. In fall 2011 the vice chancellor for technology and education convened a Districtwide LMS Task Force, charged with developing a list of requirements to be incorporated into a request for proposals to be distributed among LMS vendors. The goal is to standardize on one LMS for the entire district and support that LMS through the District Office.

Planning efforts undertaken by DVC for the implementation of distance education coincide with the college mission statement, which includes:

- Diablo Valley College is passionately committed to student learning through the intellectual, scientific, artistic, psychological and ethical development of its diverse student body.
- Diablo Valley College prepares students for transfer to four-year universities, provides career and technical education; supports the economic development of the region; offers pre-collegiate programs; and promotes personal growth and lifelong learning.

Further, these goals are consistent with the current strategic directions of the college, which include:

- The college will increase the percentage of students who: transfer, receive relevant and timely training for the workplace and, are proficient in Basic Skills while narrowing the transfer, achievement and proficiency gaps across all subgroups.
- The college will diversify funding resources to increase the level of discretionary control over resources and increase the total funding received by the college.
- The college will implement, align, evaluate and improve planning processes within the college on an ongoing basis.

On review, it is clear that DVC’s online course offerings address each of the curricular areas supported by the mission statement. Appendices B, C and D identify the online courses that

fulfill the various general education requirements for the Associate Degree. In addition Appendix E identifies courses that fulfill major requirements including those offered online.

DVC's Technology Master Plan, which is updated annually, is the long range, accountable plan for all technology on campus. It addresses the budgeting needs for distance learning and makes recommendations for all aspects of its support with regard to facilities, equipment, and other resources. In addition, it cites the need for training and classified staff support.

D. Evidence of Institutional Support to Demonstrate the Continuance of Quality Standards

DI. Evidence of Sufficient and Qualified Faculty, Management, and Support Staffing

Faculty

Online faculty members are subject to the same standards and scrutiny in hiring and evaluation as all other faculty at DVC. The minimum standards for hiring are those specified by the California Community Colleges. Besides meeting minimum qualifications as established by the California Community Colleges, faculty desiring to teach online must also satisfy departmentally established criteria for teaching online. Typically, this preparation is gained through training provided by the DVC Staff Development Center, by the department, or through experience teaching online at another institution.

The DVC Staff Development Center offers an annual Summer Technology Institute (<http://www.dvc.edu/org/departments/instructional-technology/SummerTechnologyInstitute.htm>). The institute, along with other staff development activities focus on best practices for online/hybrid course design, WebCT (the default Learning Management System) as well as other aspects of technology as it relates to instruction. The institute is offered by the college Instructional Technology Coordinator in conjunction with the Staff Development Coordinator. In addition, both the Instructional Technology Coordinator and the WebCT Administrator offer weekly drop-in training and problem solving sessions in the Staff Development Center.

Training sessions focus upon effective online teaching practices. Faculty are taught how to utilize various Learning Management System (LMS) tools, such as the discussion board, the email system, chat rooms, "live" classroom, the assignments tool and more, to design online courses that foster interaction between faculty and students. Best practice emphasizes the constant involvement of the instructor with students and course materials through the previously-listed technological tools.

The training provided is good and exposes faculty to the benefits and pitfalls of teaching online. The materials provided are very helpful. Experienced online faculty also serve as informal mentors to faculty who are beginning to teach online, sometimes co-teaching a course with a new online instructor.

Of the 104 DVC faculty currently teaching online, 55 are full-time contact faculty and 49 are adjunct faculty. The number of contract faculty teaching online has steadily increased and

continues to increase over time. DVC has not attempted to hire adjunct faculty solely for the purpose of increasing the number of online courses but has focused on training current contract and adjunct faculty. When new contract faculty are hired, one consideration is their interest, willingness and ability to use technology, including online teaching.

The faculty evaluation criteria and student evaluation form are the same for online courses as for other courses. Through the United Faculty-CCCCD contract process, an online student evaluation tool of instructors has been developed and was implemented fall 2006. These evaluations have become an integral part of the faculty evaluation process, ensuring that online instructors are evaluated and provided feedback in the same manner as instructors of on-campus courses. The instructor and student tracking features built within the LMS provide data that can be used within the faculty evaluation process to indicate satisfactory levels of faculty-student interaction.

Management

In 2007, the Executive Dean of Information Technology and Services became the Distance Education Coordinator. In that role, the executive dean was responsible for technology campuswide – instructional and administrative – as well as the responsibility for distance education. This position also provided the infrastructure and support for the technological aspects of distance learning as well as supporting training for the pedagogical aspects. Effective July 1, 2011, this position was replaced by the Technology Systems Manager (TSM).

As was mentioned above, the primary responsibility for implementing distance education courses lies with the college. District support is provided by CCCCCD Vice Chancellor of Technology and Education and the District Information Technology Committee. Responsibilities include technical infrastructure of the WebCT LMS and its integration with the district's Datatel management information system.

There is a close and effective working relationship between the administrators at both DVC and CCCCCD that is highly beneficial to the quality of our program.

Support Staffing

DVC supports distance education through two staff positions, a Technology Training and Development Coordinator and a WebCT Administrator, as well as a Staff Development Coordinator (an 80 percent faculty reassigned time position).

Support through Participatory Governance

In spring 2011 the DVC Faculty Senate Council voted to reconstitute the DVC Distance Learning Advisory Task Force (Task Force). This Task Force had been on hiatus for approximately two years. During the period 2005-2007, the Task Force, in collaboration with the Instructional Technology Coordinator and the Distance Education Coordinator, developed a comprehensive set of guidelines for distance education at DVC (Online Course Guidelines). These guidelines were adopted by the DVC Faculty Senate Council and the DVC Leadership Council (primary governance committee at that time) and serve as the guidelines for all distance education courses at

DVC. In addition, the DVC Information Technology Committee provided input to the guidelines regarding possible hardware and software solutions.

D2. Evidence of Appropriate Equipment and Facilities, including Adequate Control over any Off-campus Site.

The library has an extensive web presence supporting online learning. Students enrolled in distance education classes and those doing schoolwork remotely via the internet have access to a robust web site with information resources, a variety of instructional opportunities and means of communicating with library faculty for assistance. To continue building these virtual services, the most recent library faculty member hired has primary responsibility for online resources and web services development.

Library references services, research assistance and help with online course management software are provided during all open hours. Direct assistance from library faculty is available to students face-to-face as a walk-up service or by appointment. Off-campus, virtual assistance from a librarian is available via phone, email, live chat, and texting modes.

Library research instruction is offered through a collection of Research Guides (called LibGuides); brief “how-to” video tutorials provided via a YouTube channel; a six-module web-based tutorial, *SearchPath*; and through the library’s online course, *Information Literacy and Research Skills*.

Online access to the library’s collection of e-resources is available 24/7 to all students, faculty or staff. The collection includes over 45,000 e-books, 250 digital reference titles, and approximately 15,000 full-text journal and newspaper titles.

To assist distance education students doing coursework on campus, the library provides 75 computer stations, scanners, printers and photocopiers.

The San Ramon and the Pleasant Hill campuses of Diablo Valley College provide 41 computer labs in Pleasant Hill and 3 at SRVC, in addition to computer classrooms that exclusively support the college curriculum. These facilities contribute to student learning by providing locations where students can access a variety of computer based technologies to support their learning and help them succeed in their scholastic goals.

The college provides computer labs that enable students to utilize general programs such as word processing, presentation software, spreadsheet applications and internet connectivity for research. Many departmental labs also contain specialized software applications for more specific needs. For example the math lab, multimedia lab, business lab, foreign language lab and two science labs all contain discipline specific software packages that students can access to complete assignments or projects.

Recently in an effort to better serve the needs of the DVC student population, the college consolidated several labs into the new Advanced Technology Center. This provides a centralized location for Computer Science, Multimedia and GIS classrooms.

Student Services programs that are available in an online mode include:

a. **Counseling:** The Counseling Department offers an online counseling service (e-advisor) for students with questions that require a brief response. Additionally, a “chat with a counselor” service using Skype as its synchronous platform is currently under development.

Also offered is a variety of screen captured instructional videos designed to help students navigate the complex world of higher education. These videos are available on the Counseling webpage and via YouTube. Video topics include ASSIST Articulation Agreements, Major Exploration using ASSIST, First Semester Course Selection and Concurrent Enrollment at UC Berkeley. View the Video Library at: www.dvc.edu/org/departments/counseling/videolibrary.htm.

Other online counseling services include eSARS online scheduling appointment system and synchronous transfer and career-related workshops using CCCConfer (a web-based conferencing system maintained by the California Community College State Chancellor’s Office). Associate degree and transfer-related curriculum guides can be accessed and downloaded from the Counseling webpage.

b. **Accessibility:** Disability Support Services (DSS) provides students with the opportunity to apply online for services. Services include applying for accommodations and contacting DSS staff to arrange for online testing accommodations. Students can receive assistance in the High-Tech Center to utilize computers with assistive software and other equipment, access WebCT, etc. Assistive software is also available at a variety of other computer work stations across campus. The DSS verification form is also available online. This verification form is required for doctor documentation. DSS also offers email appointments with a DSS counselor.

Of primary concern at DVC is the college’s commitment to accessibility so that all students may learn. To this end, the DVC web site is 508 compliant and the WebCT LMS platform is accessible as well. A systematic evaluation and planning effort is currently underway at the district with input from all stakeholders to select a replacement LMS. Accessibility compliance is one of the evaluation criteria and is a requirement for choosing a LMS for the District.

c. **Admissions:** Admissions and Records offers students the ability to request official transcripts online. Via WebAdvisor, students are able to order and pay for official transcripts online. This is a collaborative effort with the other two colleges in the district, Contra Costa and Los Medanos Colleges. Upon ordering the transcript, students are also able to view the status of their order and receive immediate feedback of any holds. This service offers convenience and flexibility to students looking for a quick and reliable method to order transcripts. Petition to repeat classes can also be completed online.

A number of services are available including online admissions application, FASFA, registration, parking permit purchases, assessment appointments, etc. The Enrollment Services Lab which is a collaborative effort between the Welcome Center and Admissions and Records provides a place for students to complete any of the online enrollment services available at DVC.

d. **Delivery of course material:** Books and other required materials are available for online purchase via the DVC Bookstore website. In addition, for library reserves, faculty can work with library staff to set up links to articles available through college periodical databases, and they can link to e-books that are owned by the library.

e. **Financial aid:** The Financial Aid Office (FAO) has made the Board of Governors Fee Waiver application available for students to complete online via CCCApply.org. Students can submit the Fee Waiver application at their convenience and processing takes about 48 hours.

Other online services developed by the FAO include maintaining a presence on social networking sites like MySpace, Facebook, and Twitter. These online opportunities provide students with accurate and pertinent information about the program and services in the FAO. In addition, staff is able to communicate on a regular basis to over 2,000 friends through these various networking sites about important dates, financial aid opportunities, and campus and office news. A DVC financial aid blog has also been created. The blog enables the DVC and online community to read about scholarship opportunities, news about financial aid, and other general information or news about higher education. The blog enables FAO staff to share information with students, parents, high school counselors, DVC faculty and staff, and with colleagues at other higher education institutions.

Additionally, the FAO utilizes YouTube to offer tutorial videos that assist students in navigating through the financial aid process and completing various forms.

f. **Career and employment services:** The Career and Employment Services center features an online job posting system. In addition to job posting capabilities, the system hosts a portfolio feature for various majors where students can upload and save important documents, photos, videos and transcripts for employers to view. The site also contains career advice videos that focus on appropriate interview attire, responses to key interview questions, and tips on resume writing. Services can be accessed by students, alumni, employers and the community. The website is www.collegecentral.com/dvc.

g. **Tutoring:** At this time, DVC does not offer any tutoring services via distance education. The Tutoring Advisory Committee is conducting a collegewide evaluation of tutoring services in order to better assess needs and recommend allocation of resources to meet those needs.

h. **Cooperative Work Experience (CO-OP) Education:** CO-OP Education provides an automated software system that allows students to complete their CO-OP application online. Students are provided with automated communications and follow-up on their next steps for CO-OP enrollment. Instructors are provided with rosters and individual information sheets for each student. In addition the system compiles a database of employers for use in future recruitment and relationship building. Despite reduction in staffing, the system has been instrumental in allowing CO-OP Education to continue.

i. **Assessment:** The Assessment Center provides students with the opportunity to schedule appointments online for placement testing. In addition, the Informed Student Self Assessment is an online self-placement test for pre-collegiate level math courses.

j. **International Students Admissions and Services** provides an online orientation that allows students to acquire critical information about DVC prior to entering the United States. Completing the orientation also allows students to enroll in classes at DVC prior to entering the US. Students can also access the DVC International Counseling Blog for updates on important deadlines, information about transferring, announcements, etc. at www.dvc.edu/international/resources.

k. **Other services:** The Transfer Center offers essential information related to transfer on the DVC website. The Student Life Office and Associated Students of DVC (ASDVC) utilize a web-based training module to train new club advisors. Trainings include Advisor Orientation, How to Start a New Club, and Inter-Club Council/ASDVC funds request procedures. In addition, the student life website has been updated to include many club resources, such as the Student Organization Handbook and a variety of essential forms.

A video for probation level two students is available on YouTube. Also, students can use email to request reinstatement for dismissal.

D3. Evidence of Fiscal Resources including the Initial and Long Term Amount and Sources of Funding for the Proposed Change.

DVC is part of the Contra Costa Community College District. As a result of its most recent comprehensive self evaluation (2008), the district implemented a new financial allocation model (referred to as the 361 model). This model gives the college greater autonomy for managing its fiscal resources. The college is assessed for services provided by the District and is expected to maintain a fiscal reserve to address unforeseen events. Now, in the second year of implementing this model, and with several years of declining financial support from the State of California, DVC maintains a healthy reserve while continuing to support distance education activities and the services needed by students. Although the long term outlook for state funding is not positive, the college and district are committed to supporting distance education.

D4. A Plan for Monitoring Achievement of the Desired Outcomes of the Proposed Change.

The process initiated in 2007 for online faculty evaluations has allowed closer scrutiny of, and guidance to, faculty teaching online. This will continue to assist the College in assuring that the quality of online education is parallel with that of on-campus instruction.

The research department regularly reports on student enrollment, success, retention, and other factors. These reports are scrutinized and the results used in decisions about future directions for online classes. Research results on student enrollment in distance education courses, retention rates, success rates and withdrawal rates are presented below for the last five academic years:

ONLINE					
Year	Number of courses	Number of sections	Full Time Faculty Teaching Online	Part Time Faculty Teaching Online	Total Faculty Teaching Online
2006-2007	199	366	49	55	104
2007-2008	231	411	57	66	123
2008-2009	231	433	59	61	120
2009-2010	240	442	62	53	115
2010-2011	184	436	70	51	121

ONLINE				
Year	End of Term Seat	Retention	Success	Withdrawals
2006-2007	10,773	79.20%	60.20%	20.80%
2007-2008	12,802	77.90%	62.60%	22.10%
2008-2009	13,681	80.00%	63.80%	80.00%
2009-2010	14,578	81.10%	65.60%	18.90%
2010-2011	15,211	82.32%	65.65%	17.68%

TRADITIONAL				
Year	End of Term Seat	Retention	Success	Withdrawals
2006-2007	134,885	83.70%	72.60%	16.30%
2007-2008	135,837	83.50%	72.80%	16.50%
2008-2009	142,615	85.10%	72.30%	14.90%
2009-2010	146,626	84.70%	72.70%	15.30%

Source: DVC Research Department (6/30/11)

Over the last five years, the number of courses and sections offered in a distance education format has increased gradually. A comparative analysis of retention, success and withdrawal rates between distance education and traditional courses shows that rates of success and retention are higher while withdrawal rates are lower in traditional courses. It is important to note that the difference between online and traditional course success, retention and withdrawal rates has decreased steadily over the past five years while the overall rates for both groups has gradually increased. Differences still exist and the college is committed to closing these gaps. Each individual instructional unit monitors these data elements as part of their annual Instructional Unit Program Review.

Research findings and staff development surveys are also used in guiding the content of workshops on pedagogical issues in online education.

E. Evidence That the Institution Has Received All Necessary Internal and External Approvals

All courses, degrees, and certificates offered by DVC have been approved by the DVC Curriculum Committee, the Contra Costa Community College District Board of Trustees, and the California Community College System Office. All courses taught in a distance education mode have been reviewed for quality standards and approved by the DVC Curriculum Committee in accordance with California administrative code and regulation. Documentation of approval for each course, program, and distance education delivery method is available upon request.

F. Evidence That Each Eligibility Requirement Will Still Be Fulfilled

CERTIFICATION OF CONTINUED COMPLIANCE WITH ELIGIBILITY REQUIREMENTS FOR ACCREDITATION

1. Authority (no change since last accreditation visit in 2008)

Diablo Valley College is authorized by the state of California to operate as a public community college. As such, the college is authorized under Title 5 of the Administrative Code to offer Associate in Arts and Associate in Science degrees, and appropriate approved certificates.

2. Mission

The college has an approved mission appropriate for a public California community college that clearly defines the college's primary purposes and describes the institutional commitment to achieving student learning. The mission, vision and values statement was adopted by the Contra Costa Community College District Board of Trustees and is online as well as published in the catalog and other public documents.

3. Governing Board (no change since last accreditation visit in 2008)

Diablo Valley College is governed by the Board of Trustees for the Contra Costa Community College District. The board is responsible for the quality and integrity of the institution, for ensuring that the institution's mission is carried out, and for ensuring that the institution's financial resources are directed toward a sound educational program. The board, composed of five members elected to represent specific areas of Contra Costa County, is sufficient in size and composition to fulfill its responsibilities. As a body charged with independent policy-making, it is capable of reflecting the interests of the public and constituents in its decisions. Board members do not have employment, family, ownership, or personal financial interests in the institution. The board adheres to a conflict of interest policy that ensures impartiality in all their deliberations and decisions.

4. Chief Executive Officer

Diablo Valley College's chief executive officer is Mr. Peter Garcia. The chief executive officer is appointed to his role as president by the board and his primary responsibility is to the institution. The board delegates to the president the authority to administer board policies for the college. Neither the college president nor the district chancellor serves as chair of the board.

5. Administrative Capacity (no change since last accreditation visit in 2008)

Diablo Valley College is staffed by a sufficient number of administrators to provide the services necessary to support the College's mission and purposes. Administrators are selected competitively and all possess the appropriate preparation and experience to fulfill their assigned roles.

6. Operational Status (no change since last accreditation visit in 2008)

The College is in full and continuous operation. Students are actively pursuing the degree programs offered by the institution.

7. Degrees (no change since last accreditation visit in 2008)

The majority of DVC's course offerings lead to Associate degrees and/or certificates and the college routinely scrutinizes course offerings to assure that they meet degree and program objectives. Students' educational goals and their progress toward them are monitored and provide evidence that a significant proportion of student enrollments are in courses leading to degree/certificate offerings.

8. Educational Programs (no change since last accreditation visit in 2008)

Diablo Valley College offers a large number of Associate degrees and certificates that are consistent with the college's mission. All programs are developed based on needs assessments and recommendations from discipline experts; input from industry advisory committees and transfer institutions are utilized in program development. Degree and certificate requirements are consistent with Title 5 in their extent, depth, rigor and intensity. Students completing degrees and certificates are required to demonstrate outcomes. Degree programs require a minimum of 60 credit units and are, generally, two years in length.

9. Academic Credit (no change since last accreditation visit in 2008)

Academic credit for coursework is awarded in accordance with Section 55002.5, Credit Hour, of Title 5 of the California Code of Regulations. DVC offers courses on a semester system. As such all credit courses require a minimum of 48 hours of lecture, study, or laboratory work for one unit of credit.

10. Student Learning and Achievement

The Diablo Valley College Catalog, published and updated annually, defines the requirements for every degree and certificate offered by the college. The listings include prerequisites, course numbers, names, and units, as well as descriptive program information. Program and course-level student learning outcomes are available on the college web site (<http://www.dvc.edu/commoncontent/student-learning-outcomes/pdfs/pSLOs.html>) with links provided in the college catalog. Longitudinal student achievement data is tracked and published on the college research website. Annual program reviews include an assessment of students' achievement of outcomes.

11. General Education (no change since last accreditation visit in 2008)

All Associate degrees offered by Diablo Valley College require a general education component. General education requirements are defined by CCCC Board Policy 4011, which is consistent with Title 5 general education policy (Section 55063) for California community colleges and is consistent with levels of quality and rigor appropriate to higher education. The college's general education requirements are designed to ensure breadth of knowledge and promote intellectual inquiry. They include demonstrated proficiency in writing and mathematics.

12. Academic Freedom (no change since last accreditation visit in 2008)

Board Policy 2018, adopted by the board on June 27, 1984, and revised on July 21, 1999, defines academic freedom for faculty, staff and students. Specifically, faculty, staff and students are free to teach, study, conduct research, write and challenge viewpoints without undue restriction. Diablo Valley College supports and sustains a culture that protects intellectual freedom and independence.

13. Faculty

Diablo Valley College has a core of well qualified and experienced full-time faculty to support the college's educational programs. The faculty union contract clearly specifies the responsibilities of a faculty member. Both the contract and the evaluation procedures describe the faculty's responsibilities for program and curriculum development as well as for assessment of student learning.

14. Student Services (no change since last accreditation visit in 2008)

Diablo Valley College provides a wide range of student services to meet the needs of all of its students. The services are consistent with the size of the institution, the characteristics of the student population, and the mission of the institution. Student services are organized to best support as well as encourage learning and development. Point of service data are acquired as part of the program review process where service areas are routinely assessed.

15. Admissions (no change since last accreditation visit in 2008)

Diablo Valley College has adopted and strictly follows admissions policies that are consistent with the community college mission and Title 5 requirements. The policies, printed in the catalog and class schedules, specify the qualifications necessary for admission to the institution. Admissions personnel are qualified for and understand their role relative to established policies.

16. Information and Learning Resources (no change since last accreditation visit in 2008)

A wide range of information and learning resources are provided to support the college's mission and educational programs. The library owns or licenses a large inventory of print, non-print, and web-accessible materials. Students may access library database resources through the web, whether on or off campus. All instructional programs, including online, may access these resources. Resources are also available through dedicated campus computer labs as well as online.

17. Financial Resources

The college has sufficient financial resources to support student learning programs and services and to improve institutional effectiveness. Planning takes place at both the college and the district levels and is evaluated and modified as changes require. Financial resources support the mission and provide financial stability.

18. Financial Accountability (no change since last accreditation visit in 2008)

As required by law, Diablo Valley College undergoes regular financial audits in concert with the rest of the Contra Costa Community College District. The audits are conducted by external auditors who are certified public accountants and have no other relationship to the district or college. These annual audit reports along with an annual financial report are submitted to the ACCJC as part of the college's annual report.

19. Institutional Planning and Evaluation

Diablo Valley College's participatory governance structure was redesigned as a result of being placed on Show Cause by the ACCJC in January 2009. The new structure includes four governance committees: College Council, Institutional Planning Committee, Budget Committee and the Integration Council. In addition, there are twelve collegewide operational committees. The Institutional Planning Committee (IPC) is charged with recommending to the College Council the annual and multi-year strategic directions, including action steps. College Council reviews this recommendation prior to a final recommendation to the college president. Through June 30, 2011, the IPC relied on the Institutional Effectiveness Committee (IEC) to coordinate the collegewide evaluation of the integrated planning and resource allocation process. After June 30, 2011, the functions of the IEC have been absorbed by the IPC as the college seeks to streamline its committee structure while retaining those key functions necessary to ensure institutional effectiveness. In addition, all collegewide committees are required to complete an annual self

evaluation and submit this evaluation to the College Council. College Council uses these annual self evaluations as part of their review of the college governance and consultation model.

Diablo Valley College's institutional effectiveness is regularly evaluated and tracked and reported to the College Council. This is accomplished through point of service surveys soliciting student feedback for most student services programs and through the collection and analysis of data on student demographics, success, persistence, degrees, certificates, and transfer for instructional programs. Additional effectiveness data is collected through the use of web-based survey tools. The data were analyzed by the college research department and reported to the IEC. Beginning July 1, 2011, research functions have been centralized at the CCCCD District Office. Effectiveness data will be analyzed by District research and reported to the IPC. The IPC schedules meetings to discuss effectiveness data for a broader collegewide review before being forwarded to the College Council and ultimately, the college president. The institutional effectiveness data and longitudinal student outcomes data is published on the college research website.

Diablo Valley College is committed to student learning outcomes (SLOs) and their assessment. SLOs and their results continue to be reported in the program review plans for its academic programs, student services and administrative services. The college has developed a web-based SLO database called 'WebSLOs' for instructional SLOs at the course and program-level. The database is maintained by the instructional SLO facilitator and provides web access to approved SLOs, assessment schedules, and assessment results. SLOs for student services programs are maintained by the individual programs. To date, course and program-level SLOs have been input for 100 percent of the courses and programs at DVC. Ongoing assessment of SLOs is underway for 41 percent of all courses and 92 percent of all instructional programs. SLOs have been defined and are being assessed for 100 percent of student services programs.

20. Public Information

Diablo Valley College revises and publishes its catalog annually. To ensure accuracy and currency, the entire catalog is reviewed by the appropriate contributors. The catalog is published in printed form and is also available in electronic format on the college web site. The catalog contains general information including demographic information about the institution; its mission, vision, values and goals; course, program, and degree offerings; academic calendar and program length; academic freedom statement; available student financial aid and learning resources; names and degrees of administrators and faculty; names of governing board members; admission requirements and procedures; policies, rules and regulations directly affecting students including fees and other financial obligations, degree, certificate, graduation and transfer requirements, academic regulations including academic honesty, acceptance of transfer credits, statement of nondiscrimination, sexual harassment policy, complaint and grievance procedures. Much of this information is also published in the class schedule and Student Handbook.

21. Relations with the Accrediting Commission

The Board of Trustees affirms that Diablo Valley College adheres strictly to the eligibility requirements, accreditation standards and policies of the Commission, describes itself in identical

terms to all of its accrediting agencies, communicates any changes in its accredited status, and agrees to disclose information required by the Commission to carry out its accrediting responsibilities. Moreover, the college will comply with Commission requests, directives, decisions and policies, and will make complete, accurate and honest disclosures in all communications.

G. Evidence That Each Accreditation Standard Will Still Be Fulfilled

CERTIFICATION OF THE CONTINUED MEETING OR EXCEEDING OF ALL ACCREDITATION STANDARDS

DVC continues to meet or exceed all of the standards of accreditation. The college's last comprehensive visit was in 2008 and resulted in the college being placed on Show Cause. In response to the Show Cause action, the college prepared a Show Cause report (October 2009). Based on a visit in October 2009, the Commission acted to remove Show Cause and issue Probation in January 2010. DVC was instructed to prepare a Follow-Up report by October 15, 2010. A team visited the college in November 2010 and based on the Follow-Up report and the report from the visiting team, the Commission acted to remove probation and reaffirm accreditation at its January 2011 meeting. DVC prepared and submitted a focused midterm report in October 2011. The focused midterm report is expected to be accepted in January 2012 with no visit required. The college's next accreditation visit is scheduled for 2014.

Accreditation standards that are particularly impacted by the proposed change are addressed below.

Standard I: Institutional Mission and Effectiveness - The institution demonstrates strong commitment to a mission that emphasizes achievement of student learning and to communicating the mission internally and externally. The institution uses analyses of quantitative and qualitative data and analysis in an ongoing and systematic cycle of evaluation, integrated planning, implementation, and re-evaluation to verify and improve the effectiveness by which the mission is accomplished.

A. Mission: DVC's mission statement clearly articulates its educational purposes, the students it serves, and its commitment to student learning. Along with the mission statement are the college's vision and values statements. Together these three statements provide the guidance for all that DVC seeks to achieve. The latest revision to the college's mission statement occurred during fall 2010 and is published on the college's website, and appears in the 2011-2012 catalog and other publications.

The College's mission statement begins with the focus on student learning, which is fundamental to all that we do. It describes our focus on all aspects of learning among a diverse student body. It also identifies our focus on transfer, career and technical education, support for the local economic development of the region, pre-collegiate learning, personal growth and lifelong learning. The values statement reinforces our belief in learning, equity, excellence, creativity, diversity,

integrity, responsiveness, collaboration, communication, academic freedom, accountability and stewardship. The college is guided by its vision statement, which describes the college as an evolving, learning centered institution.

B. Improving Institutional Effectiveness: As a result of action in response to the Show Cause action as well as to the subsequent Probation action, DVC has implemented a number of structures and procedures to improve institutional effectiveness.

Structures:

- Institutional Effectiveness Committee
- Institutional Planning Committee
- College Council
- Integration Council
- Joint Faculty Senate and Administration Scheduling Task Force (review of DE courses)

Procedures:

- Integrated Planning (DVC Procedure 1010.01)
- Program Review (DVC Procedure 1016.01)
- College Governance (DVC Procedure 1009.01)

Standard II: Student Learning Programs and Services - The institution offers high-quality instructional programs, student support services, and library and learning support services that facilitate and demonstrate the achievement of stated student learning outcomes. The institution provides an environment that supports learning, enhances student understanding and appreciation of diversity, and encourages personal and civic responsibility as well as intellectual, aesthetic, and personal development for all of its students.

A. Instructional Programs: The quality, rigor, and accountability of DVC's instructional programs drive it to excel. Effective spring 2010 program review was integrated for the entire campus with the adoption of DVC Procedure 1016.01 (Program Review) and DVC Procedure 1010.01 (Integrated Planning) which effectively integrated the existing student services program review process with the recently revised instructional unit program review process and administrative program review process. In addition, DVC Procedure 4001.07 (Course Update Compliance) was adopted spring 2010 and requires that all DVC courses be updated regularly to ensure currency and compliance with California Code of Regulation (Title 5), Contra Costa Community College District Board Policy and ACCJC standards. DVC uses a home-grown, web-based curriculum tracking and processing system called Web Curriculum System (WCS). Prior to being approved for delivery in a distance education format, all courses must be approved by the DVC Curriculum Committee. For existing curriculum a separate review and approval process exists.

The college has identified SLOs for all instructional programs at the course and degree/certificate level. SLOs for distance education courses are identical to those of non-distance education courses. A web-based SLO database (WebSLOs) serves as an interactive repository for all instructional SLOs and provides access both on and off campus. In addition, WebSLOs establishes an assessment schedule for all instructional SLOs. Verification that a program is on

track with SLO assessment and evaluation is integrated as a compliance measure for all instructional unit program reviews. Any program that does not meet this compliance measure is ineligible for college resources until such time as it comes into compliance.

In fall 2010 the college developed an institutional SLO with multiple components. In spring 2011 DVC assessed several of these components with a collegewide survey of students. The college is currently analyzing the results and will use those results to make changes designed to improve student success and achievement.

B. Student Support Services: DVC recruits and admits a diverse and multicultural student population who are able to benefit from the numerous programs and services offered by the college. In direct support of this commitment, the institution provides a broad spectrum of support services, both face to face and online, to assure student access, progress, learning, and success. Services provided include outreach and recruitment, and the formal matriculation processes of admissions, placement assessment, orientation, workshops specific to educational goals, creation of the Student Education Plan and follow up support. Ongoing and additional support is provided to students by the Counseling Center, Transfer Center, Career and Employment Services, DSS, International Student Services, and Veterans Affairs. Other support services are in place to meet the needs of underrepresented student populations, including Extended Opportunity Programs and Services, and Learning Communities such as the Puente Project.

Student services areas continue their long standing commitment to assessing student learning outcomes and using the results for continuous improvement. Fully 100 percent of all student service areas have established student learning outcomes and assess them on a regular basis. As with instructional units, verification that SLOs have been assessed is a compliance component of student service unit's program review.

The recent reduction and/or elimination to categorical funding have left a significant deficit to available resources for in-reach and outreach efforts. The college understands the value of these programs and committed itself to search for ways to continue its support to student success. The college has worked diligently to establish and strengthen community partnerships and obtain grant funding.

C. Library and Learning Support Services:

The library currently offers an array of services and instructional programs in three broad categories: library services, instructional program for career/technical education in Library and Information Technology certificate, and instructional program for Library Studies.

Library services include direct services to the students, faculty and staff; those services which acquire, manage and make available print and electronic resources; and those services which support access to technology tools.

Direct services are provided for students, faculty and staff on the DVC and SRVC campuses, as well as those in distant education programs, and those researching remotely from home or work. Services include reference and research assistance, course-related library instruction workshops, and online access to our virtual library of e-resources from the [library website](#). The virtual library

provides access to e-books, full-text articles, e-handouts and research guides, the library catalogs of all three CCCD library collections, web links to resources and general information about the library.

Over 5,300 instructional support videos are available for faculty check out and student use in the Media Center. Also, a reserve collection of videos is made available by faculty for student use. Using DECT grant funds, the media center is providing close captioned videos for online classes. These videos are made available through Burbank online services or other streaming services that students can access at their convenience.

The Computer Center is on the first floor of the Library Building. There are over 100 computers available for student use. Students may use these machines to access their online courses. Printing is available with a student ID card. Printing costs are currently 10 cents per page. Students are required to bring their own headsets for sound and USB Flash Drives for storage. Student Lab Assistants are available to help students. Tutoring is available in L145 for 10 hours each week.

Standard III: Resources - The institution effectively uses its human, physical, technology, and financial resources to achieve its broad educational purposes, including stated student learning outcomes, and to improve institutional effectiveness.

A. Human Resources: DVC provides two classified positions in support of distance education courses. One is a WebCT administrator, responsible for administering the WebCT learning management system, assisting faculty and students with access issues and optimizing system operation. The second is a Technology Training and Development Coordinator. This position provides technical support for faculty as they develop and teach distance education courses. This position also provides some pedagogical support for faculty as they develop distance education courses. Every summer, the Technology Training and Development Coordinator offers a ‘Summer Technology Institute’ open to all faculty at DVC. The institute provides hands-on training on designing distance education courses as well as showcases best practices using WebCT. Although the college has gone through significant classified staff reductions during the past two years, the two classified positions that directly support distance education instruction have not been eliminated, evidence of the college’s commitment to supporting distance education. Effective July 1, 2011, the position of Executive Dean of IT has been eliminated. The support for distance education that was provided by this position will be handled by several positions. Hardware support will be handled by the IT Systems Manager while software support will be handled by the Vice Chancellor of Technology and Education at the CCCCD. This is all part of a districtwide plan to centralize technology support. Part of this effort is the establishment of a task force which will select a single learning management system to be used by all colleges in the district and managed by the CCCCD.

B. Physical Resources: With the passage of Measure A (2006), a capital facilities bond measure, funding was made available to upgrade the bandwidth available for internet connections on campus. The campus now provides gigabit bandwidth connections to the desktop. This added capacity will allow for improved streaming of video and interactive distance education applications. In addition, this will provide improved capacity for live lecture capture and provision of that lecture data online.

C. Technology Resources: A major part of the college planning process is the DVC Technology Master Plan, which is monitored and updated annually by the participatory governance Information Technology Committee. This plan directly oversees the deployment of services and equipment for all technology on campus, including those technologies employed for online instruction. Although this plan has historically addressed such issues as the platform on which online instruction was delivered (currently WebCT), as was mentioned above, this decision will now be made at the district level and there will be one learning management system for all colleges in the CCCCDC. The DVC Technology Master Plan will continue to specify local hardware, software and support used for both instructional and non-instructional purposes. The Faculty Senate recently revived the Distance Education Task Force, which has, in the past, developed guidelines for all distance education instruction and will continue to inform the decision making process for online instruction.

Authentication: The importance of authentication is stressed throughout faculty professional development training programs. The Faculty Senate Distance Education Task Force has mandated that faculty use the college's current learning management system, WebCT, as the landing page for all distance education courses. Doing so, ensures that all students use their district issued login and password to access the distance education course, thereby meeting the following requirement.

As stated in Section 496 of August 14, 2008, Higher Education Opportunity Act:

Accrediting agencies must require institutions that offer DE or correspondence education to have processes to establish that the student who registers is the same student who participates in and completes the work and gets the academic credit.

All students who are enrolled in distance education courses at DVC are issued a secure username and password for access to the WebCT learning management system. The username and password are generated from the student information system registration rosters and are unique to each student.

Student Privacy: The use of a secure login and password that is unique to the CCCCDC and that does not use any portion of either a student's social security number or other non-district issued form of identification, significantly reduces the likelihood of non-district information being compromised. Further, DVC and the CCCCDC stringently adhere to the Family Educational Right to Privacy Act regarding the release of student information.

D. Financial Resources: The college has gone through three consecutive years of significant budget reductions, however the college still financially supports the following items related to distance education. The college provides a single learning management system for all distance education courses through a collegewide license for WebCT. The college continues to fund professional development activities for distance education (the summer institute). The college also provides technical support for the hardware and software needed to implement distance education courses.

Standard IV: Leadership and Governance - The institution recognizes and utilizes the contributions of leadership throughout the organization for continuous improvement of the institution. Governance roles are designed to facilitate decisions that support student learning programs and services and improve institutional effectiveness, while acknowledging the designated responsibilities of the governing board and the chief administrator.

A. Decision-Making Roles and Processes: The concept of participatory governance is fundamental to DVC, which boasts active faculty, staff, and student groups, who participate in all areas of decision making. The process for participating in governance is codified in DVC Procedure 1009.01 (College Governance). The final participatory governance body is the College Council, which receives recommendations from other governance and operational committees and makes a final recommendation to the president. The President is the college's chief executive officer, reporting to the chancellor, who serves as chief executive officer for the district. The president is responsible for the leadership of the college, and the chancellor for the district, reporting to the board of trustees.

In terms of how these decision-making processes affect online instruction, three committees are essential: the Faculty Senate Distance Education Task Force, the DVC Information Technology Committee and the DVC Curriculum Committee. All three of these groups serve to inform the decision-making bodies on how to establish distance education courses and how to support distance education, both pedagogically and technically.

B. Board and Administrative Organization: DVC is part of the Contra Costa Community College District which is overseen by a five member board of trustees elected by the citizens of Contra Costa County. The district chancellor is the sole employee of the board and is the chief executive officer of the district with overall responsibility for district operations. Supporting the chancellor is a vice chancellor of education and planning, a vice chancellor of human resources and a vice chancellor of finance and administrative services. Participatory governance at the district level occurs through the District Governance Council. This body makes recommendations to the Chancellor's Cabinet, which is made up of the chancellor, the vice chancellors and the college presidents.

In the area of distance education, the district has historically played a distant supportive role by providing technology support for email and other forms of electronic communication. As was stated above, this is changing as the district now will lead a broad effort to select and standardize on a single learning management system for the all of the colleges in the district. This selection should be completed in spring 2012 with planned implementation in fall 2012.

Appendix (A)

**Summary of Diablo Valley College Degrees and Certificates
Offering 50% or More of Major Courses Online**

Discipline	Title	Certificate of Accomplishment	Certificate of Achievement	Associate in Arts	Associate in Science

Associate in Science Degree Early Childhood Education

MAJOR REQUIREMENTS:

ECE 124
ECE 125
ECE 126
ECE 128
ECE 130
ECE 144
ECE 249
ECE 250

RECOMMENDED DEGREE ELECTIVES:

ECE 129, 134, 137, 150, 151, 152, 153, 154, 155, 220, 230, 231, 237, 240, 241, 242, 243, 245A, 246, 248, 251, 252, 253, 263, 265, 269, 298

Certificate of Achievement Early Childhood Education – Basic

REQUIRED COURSES:

ECE 124
ECE 125
ECE 126
ECE 128
ECE 130
ECE 144
ECE 249
ECE 250

**Certificate of Achievement
Early Childhood Education
Family Day Care Provider/Foster Care Provider/In-Home Child Care
Provider**

REQUIRED COURSES:

ECE 124
ECE 126
ECE 129
ECE 130
ECE 134

PLUS AT LEAST 3 UNITS FROM:

ECE 125
ECE 128
ECE 144
ECE 220
ECE 230
ECE 269

PLUS 2 UNITS FROM:

ECE 245
ECE 246
ECE 247

Certificate of Achievement

Early Childhood Education - Master Teacher

REQUIRED COURSES

ECE 124	ECE 144
ECE 125	ECE 249
ECE 126	ECE 250
ECE 128	ECE 253
ECE 130	

plus at least 6 units in any one of these areas of concentration:

Creative Expression

ECE 237
ECE 242
ECE 243

or one elective from ART 155, 160; or PEDAN 129, 130, 138,142; or DRAMA 150; or MUSIC 101, 102, 112, 120, 150, 151,171

Curriculum

ECE 128	ECE 241
ECE 140	ECE 242
ECE 237	ECE 243
ECE 240	ECE 244

Family Day Care/Foster Care Provider

ECE 245

ECE 265
ECE 269

Or any Sign Language course: SIGN 280, 281, or 282

Certificate of Achievement Early Childhood Education - Site Supervisor

The same courses as required for the Early Childhood Education Master Teacher Certificate

REQUIRED COURSES

ECE 124
ECE 125
ECE 126
ECE 128
ECE 130
ECE 144
ECE 249
ECE 250
ECE 253

PLUS 9 UNITS FROM:

ECE 129
ECE 251
ECE 252

Certificate of Achievement Early Childhood Education -Teacher

REQUIRED COURSES:

ECE 124
ECE 125
ECE 126
ECE 128
ECE 130
ECE 144
ECE 249
ECE 250

plus at least 16 units from: general education courses

Certificate of Accomplishment
Early Childhood Education - Associate teacher

REQUIRED COURSES:

ECE 123

ECE 124

ECE 125

ECE 130

Certificate of Accomplishment

Early Childhood Education - Resource (Foster) Family Specialist

REQUIRED COURSES:

ECE 246
ECE 248

plus at least 7 units from one of the 3 specialty areas listed below:

Providing Care for Children Aged 0-5 years

ECE 266
ECE 129
ECE 137
ECE 150
ECE 156
ECE 247
ECE 263
ECE 265
ECE 269

Providing Care for Children Aged 6-11 years

ECE 267
ECE 129
ECE 137
ECE 157
ECE 220
ECE 247
ECE 263
ECE 265
ECE 269

Providing Care for Youth Aged 12-18 years

ECE 158
ECE 247
ECE 268

OR STUDENT MAY COMPLETE:

PSYCH 115

Associate in Science Electrical/Electronics Technology

MAJOR REQUIREMENTS

ELECT 120

Appendix (D)

**Courses Fulfilling CSU General Education
Breadth Requirements (CSU G.E.)
Per Diablo Valley College Catalog, 2011-12
Diablo Valley College Online Offerings**

A - English Language Communication and Critical Thinking

A-1 Oral Communication

Course requirement – 3 units
SPCH-120

A-2 Written Communication

Course requirement – 3 units
ENGL-122

A-3 Critical Thinking

Course requirement – 3 units
ENGL-123
ENGL-126
PSYCH-145

B – Scientific Inquiry and Quantitative Reasoning

At least 3 units from B-1, at least 3 units in B-2, at least one lab course to meet B-3; at least 3 units in B-4. Courses that meet laboratory requirements are underlined and must be taken with matching lecture course.

B-1 Physical Science

ASTRO-128
CHEM-106
CHEM-109
GEOG-140
OCEAN-102
PHYS-110
PHYS-129

B-2 Life Science

ANTHR-140
BIOSC-102

B-3 Laboratory Activity

Once course in B-1 or B-2 must be a laboratory course. Courses that meet the laboratory requirement are underlined in area B-1 and B-2 and must be taken with matching lecture courses.

B-4 Mathematics/Quantitative Reasoning

BUS-240	MATH-182
MATH-121	MATH-191
MATH-124	MATH-192
MATH-135	MATH-195
MATH-135SP	MATH-292
MATH-142	

C – Arts and Humanities

Course requirement – 9 units

Complete at least one 3 unit course in the Arts (C-1), one 3 unit course in the Humanities (C-2), and 3 units from either Arts (C-1) or Humanities (C-2), for the total requirement of at least 9 units.

C-1 Arts (Art, Dance, Film, Music, Theater)

ARTDM-214	FILM-160

Appendix (E)

**Courses Fulfilling the Diablo Valley College (DVC) Associate Degree General
Education Requirements
Per Diablo Valley College Catalog, 2011-12
Diablo Valley College Online Offerings**

I. Language and Reasoning

A. English composition

Course requirement – 3 units. Complete with a “C” grade or higher:

ENGL-122

B. Communications and analytical thinking

Course requirement – 3-4 units

Complete one course:

BUS-240	HIST-122
BUS-250	MATH-124
BUS-255	MATH-135
COMSC-100	MATH-135SP
COMSC-105	MATH-142
COMSC-110	MATH-183
COMSC-255	MATH-191
COMSC-265	MATH-192
ENGL-123	MATH-195
ENGL-126	PSYCH-145

C. Mathematics comprehension

Course requirement 0-4 units. Satisfy either 1) or 2) below.

- 1) Complete one of the following courses with a grade of “C” or higher, or transfer credit for an equivalent course from another accredited college or university.

BUS-240	MATH-135SP
MATH-114	MATH-142
MATH-120	MATH-182
MATH-120SP	MATH-191
MATH-121	MATH-192
MATH-124	MATH-195
MATH-135	

- 2) Options are not currently available in a distance education format.

II. Natural sciences

Course requirement 3-5 units. Complete one course:

ANTHR-140	GEOG-140
ASTRO-128	OCEAN-102
CHEM-109	PHYS-110
CHEM-109	PHYS-129

III. Arts and humanities

Course requirement 3-5 units. Complete one course:

ARABC-121	ENGL-167	FRNCH-121	HIST-171
ARTDM-214	ENGL-168	GRMAN-121	ITAL-121
ARTHS-195	ENGL-173	HIST-120	JAPAN-121
ARTHS-196	ENGL-190	HIST-121	MUSIC-110
ARTHS-197	ENGL-273	HIST-124	MUSIC-118
CHIN-121	FILM-140	HIST-125	RUSS-121
ENGL-153	FILM-160	HIST-126	SPAN-121
ENGL-154	FILM-180	HIST-129	SPAN-220
ENGL-163	FILM-280	HIST-140	SPAN-221
ENGL-166	FILM-282	HIST-141	SPAN-250

IV. Social and behavioral sciences

Course requirement – 3 units

ADJUS-120	HSCI-140	HIST-141	SOCSC-110
ANTHR-120	HIST-120	HIST-171	SOCSC-115
ANTHR-130	HIST-121	PSYCH-101	SOCSC-120
ECON-220	HIST-124	PSYCH-130	SOCSC-123
ECON-221	HIST-125	PSYCH-200	SOCIO-120
ENGIN-130	HIST-126	PSYCH-220	SOCIO-121
GEOG-135	HIST-129	PSYCH-225	SOCIO-125
HSCI-127	HIST-140	PSYCH-230	SOCIO-135

V. Multicultural studies

Course requirement – 0-3 units

ADJUS-130	ENGL-225	HIST-129
ANTHR-120	FILM-160	HIST-171
BCA-260	GEOG-135	SOCSC-115
ENGL-168	HIST-124	SOCSC-120
ENGL-173	HIST-125	SOCIO-125
ENGL-190	HIST-126	SOCIO-135

VI. Information Literacy

Course requirement 0-5 units

CARER-110

COUNS-130

HSCI-124

LS-121

VII. American Institutions

Course requirement 0-6 units

Complete one of the following pairs:

HIST-120 and HIST-121

HIST-120 and HIST-124

HIST-121 and SOCSC-115

HIST-121 and SOCSC-120

HIST-124 and SOCSC-120

HIST-171 and SOCSC-115

HIST-171 and SOCSC-120

VIII. Ecology of human health

Course requirement 0-3 units

HSCI-124

HSCI-140

HSCI-164

HSCI-170

NUTRI-160

IX. Physical Education - Options are not currently available in a distance education format.
